I. OVERVIEW

Developed by Mammoth Lakes Tourism (MLT), the Mammoth Lakes Tourism Business Improvement District (MLTBID) is an assessment district proposed to provide specific benefits to payors, by funding marketing and sales promotion efforts for assessed businesses. The MLTBID was formed in 2013 by Mammoth Lakes Town Council for a five (5) year term, and in 2018 was renewed for another five (5) year term until August 31, 2023. The tourism businesses now wish to renew it for an additional five (5) years.

Location: The renewed MLTBID includes all tourism businesses located within the boundaries of the Town of Mammoth Lakes, as shown on the map in Section III. As used herein, the term “tourism business(es)” includes all tourism businesses: lodging businesses, restaurants, retail businesses, golf courses and ski resorts.

Services: The MLTBID is designed to provide specific benefits directly to payors by increasing tourism and commerce at assessed businesses. Sales, marketing, media relations, communications and improvement programs and air service marketing and subsidy programs will increase tourism and market payors as tourist, meeting and event destinations, thereby increasing tourism and commerce at assessed businesses.

Budget: The total MLTBID annual budget for the initial year of its five (5) year operation is anticipated to be approximately \$6,668,250. This assessment budget is expected to fluctuate as visitation does.

Rates: Based on the benefits received, the assessment rate will be tiered as indicated in the table below. The assessment is levied upon and is a direct obligation of the assessed tourism business. However, the assessed tourism business may, at its discretion, pass the assessment on to patrons. The amount of assessment, if passed on to each patron, shall be disclosed in advance and separately stated from the amount of consideration charged and any other applicable taxes, and each patron shall receive a receipt for payment from the business. Further detail on benefits can be found in Section IV.

Businesses situated within other businesses, such as restaurants located within a hotel or ski resort, will be assessed at the rate for that business type and not at the rate of the other business they are situated in. Certain revenues and businesses will not be assessed as described in Section IV. Assessment rates are:

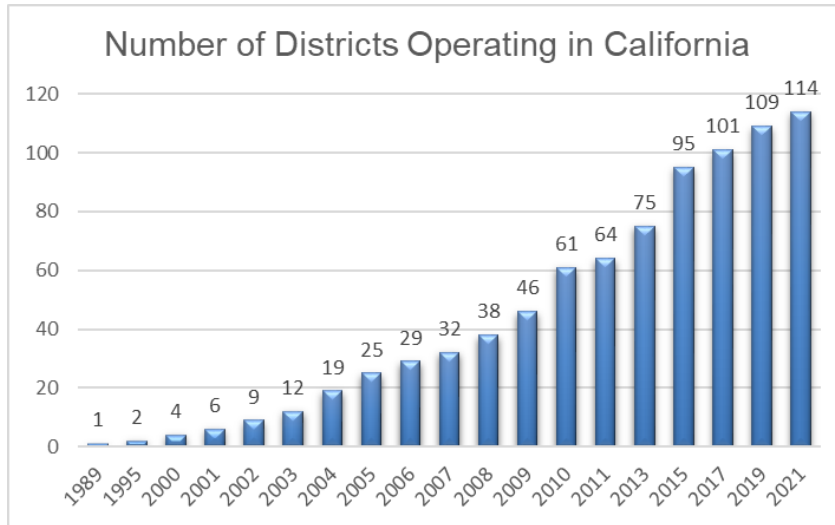

Business Type	Annual Assessment Rate
Lodging	1.0% of gross short-term room rental revenue
Ski Resorts and Golf Courses	2.5% of daily and multi-day tickets and bulk ticket packs for winter and summer activities, ski school and golf green fees and lessons
Retail – Tier 1	1.5% of gross revenue, including equipment and vehicle rentals
Retail – Tier 2*	\$500 per year
Retail – Tier 3*	\$50 per year
Restaurant – Tier 1	1.5% of gross revenue
Restaurant – Tier 2*	\$500 per year
Restaurant – Tier 3*	\$50 per year

*Only applicable upon submission and approval of an Appeal

- Appeals:* Retail and restaurant businesses are divided into three tiers as described below. All Restaurant and Retail businesses are assessed at the Tier 1 rate, unless and until an appeal is submitted and approved to be classified as Tier 2 or Tier 3. If a business is reclassified as Tier 2 or 3 upon a successful appeal, the business will be refunded any assessment paid in excess of their Tier classification within the last Fiscal Year, as described in Appendix 3. Restaurant and Retail businesses may submit appeals following the process described in Appendix 3.
- Tier 1 businesses are those which have at least \$150,000 in annual gross revenue and receive at least half of that annual gross revenue from visitors;
 - Tier 2 businesses are those which have between \$50,000 to \$149,999 in annual gross revenue, or which do not receive at least half of that annual gross revenue from visitors; and
 - Tier 3 businesses are those which have \$49,999 or less in annual gross revenue.
- Collection:* The Town of Mammoth Lakes will be responsible for collecting the assessment on a monthly basis (including any delinquencies, penalties and interest) from those tourism businesses that are assessed a percentage rate; and collecting the assessment on an annual basis in conjunction with renewal of business licenses or the appeal decision from those tourism businesses that are assessed a fixed amount. The Town of Mammoth Lakes shall take all reasonable efforts to collect the assessments from each tourism business.
- Duration:* The renewed MLTBID will have a five (5) year life, beginning September 1, 2023 through August 31, 2028. Once per year, beginning on the anniversary of district renewal, there is a 30-day period in which owners paying fifty percent (50%) or more of the assessment may protest and initiate a Town Council hearing on district termination.
- Management:* Mammoth Lakes Tourism will continue to serve as the MLTBID's Owners' Association. The Owners' Association is charged with managing funds and implementing programs in accordance with this Plan, and must provide annual reports to the Town Council.

II. BACKGROUND

TBIDs are an evolution of the traditional Business Improvement District. The first TBID was formed in West Hollywood, California in 1989. Since then, over 100 California destinations have followed suit. In recent years, other states have begun adopting the California model – Massachusetts, Montana, South Dakota, Washington, Colorado, Texas and Louisiana have adopted TBID laws. Several other states are in the process of adopting their own legislation. The cities of Wichita, Kansas and Newark, New Jersey used an existing business improvement district law to form a TBID. And, some cities, like Portland, Oregon and Memphis, Tennessee have utilized their home rule powers to create TBIDs without a state law.

California's TBIDs collectively raise over \$300 million annually for local destination marketing. With competitors raising their budgets, and increasing rivalry for visitor dollars, it is important that Mammoth Lake tourism businesses continue to invest in stable, commerce-specific marketing programs.

TBIDs utilize the efficiencies of private sector operation in the market-based promotion

of tourism districts. TBIDs allow tourism business owners to organize their efforts to increase commerce. Tourism business owners within the TBID pay an assessment and those funds are used to provide services that increase commerce.

In California, most TBIDs are formed pursuant to the Property and Business Improvement District Law of 1994. This law allows for the creation of a benefit assessment district to raise funds within a specific geographic area. *The key difference between TBIDs and other benefit assessment districts is that funds raised are returned to the private non-profit corporation governing the district.*

There are many benefits to TBIDs:

- Funds must be spent on services and improvements that provide a specific benefit only to those who pay;
- Funds cannot be diverted to general government programs;
- They are customized to fit the needs of payors in each destination;
- They allow for a wide range of services;
- They are ***designed, created and governed by those who will pay*** the assessment; and
- They provide a stable, long-term funding source for tourism promotion.

III. BOUNDARY

The MLTBID will include all tourism businesses, existing and in the future, within the boundaries of the Town of Mammoth Lakes. As used herein, the term “tourism business(es)” includes all lodging businesses, restaurants, retail businesses, and ski resorts.

“Lodging business” means: any place, space or structure, or portion of any place, space or structure, which is or may be occupied, or intended or designed for occupancy by transients for purposes of sleeping, lodging or similar use in conformance with the Town of Mammoth Lakes’ zoning regulations, and shall include, but not be limited to the following: hotel, hotel-motel, lodge, inn, dude ranch, apartment, apartment unit, condominium, condominium unit, triplex, duplex, single-family residence, vacation rental, any space rented through a home-sharing service, cooperative, mobile home, dormitory, roominghouse, camping site, space where camping or remaining overnight is permitted at a campground, recreational vehicle park, or other similar structure, facility or space. “Lodging business” shall not include any of the following: any hospital, sanitarium, medical clinic, convalescent home, rest home, owner-occupied time share estate, owner-occupied time share use, home for aged people, foster home or other similar facility operated for the care or treatment of human beings; any asylum, jail, prison, orphanage or other facility in which human beings are detained or housed under legal restraint; housing owned or controlled by any educational institution and used exclusively by students and employees of such educational institutions, and officially recognized or approved by it; any housing operated or used exclusively for religious, charitable or educational purposes by an organization having qualified for exemption from property taxes under the laws of the state of California; any housing owned by a governmental agency and used to house its employees or for governmental purposes; any camp as defined in the Labor Code or other housing furnished by any employer exclusively for housing that employer’s employees.

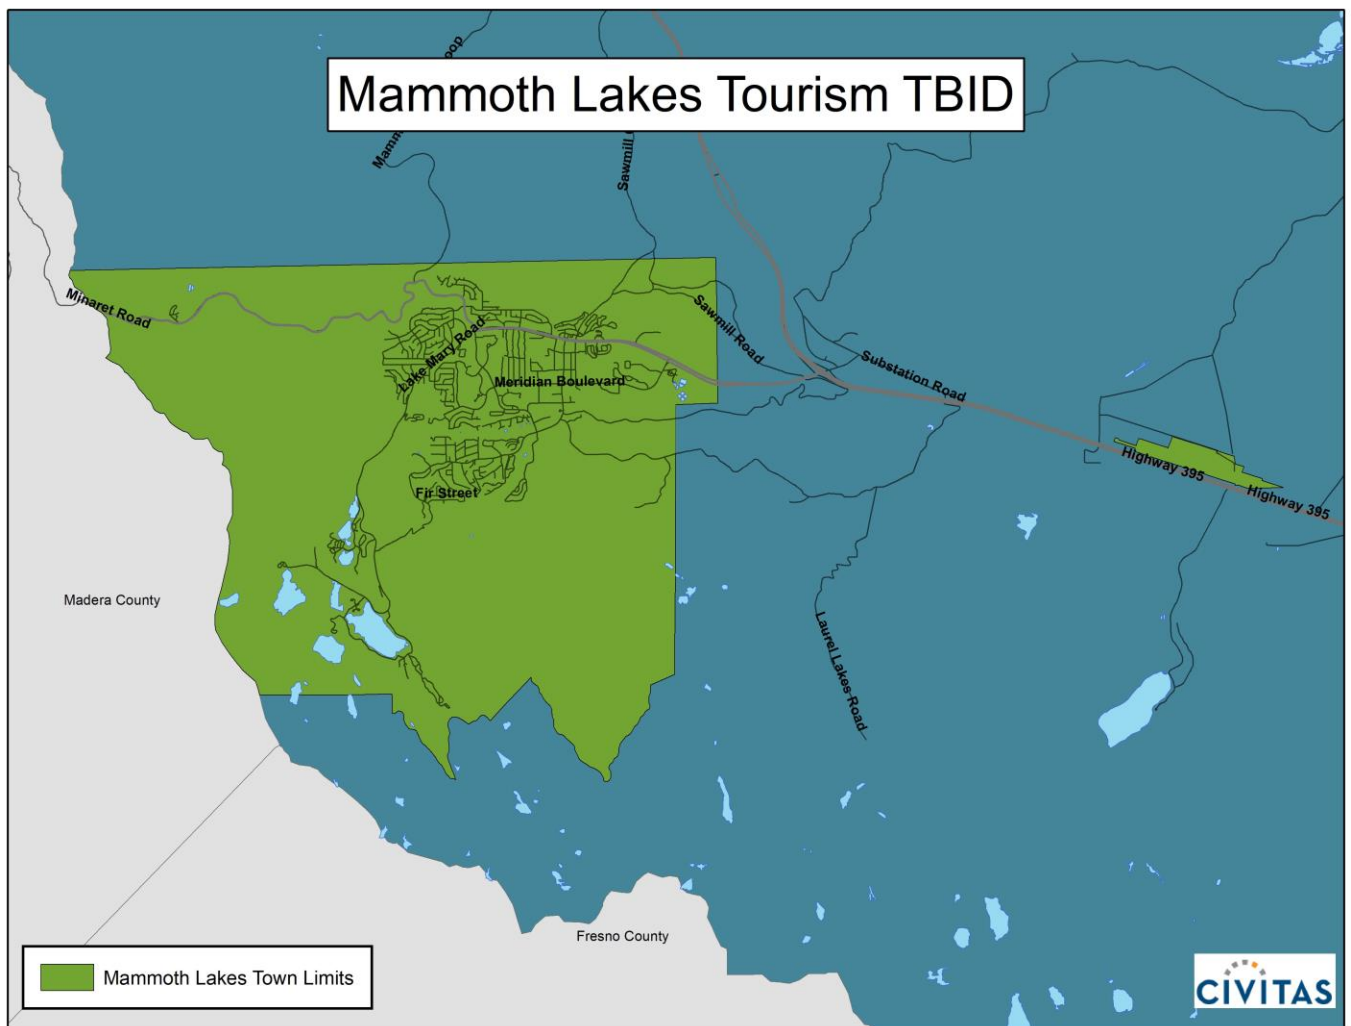

“Restaurant” means: a retail business selling ready-to-eat food and/or beverages (including alcoholic beverages) for on- or off-premise consumption. “Restaurant” includes eating establishments where customers are served from a walk-up ordering counter for either on- or off-premise consumption (“counter service”); and establishments where customers are served food at their tables for on-premises consumption (“table service”), that may also provide food for take-out. “Restaurant” includes micro-breweries where the sale and consumption of alcoholic beverages are subordinate to on-site food service and catering businesses or bakeries that have a storefront retail component.

“Retail business” means: any commercial establishment and/or vendor that is located within or doing business within the geographical limits of the Town of Mammoth Lakes and either (1) sells perishable or nonperishable goods including, but not limited to, clothing, food, recreational substances, and personal items directly to the customer that may be used on or off the retail business premises; or (2) rents goods, such as vehicles and equipment, directly to customers. “Retail business” does not include a restaurant, take-out food establishment, or any other business that receives ninety percent (90%) or more of its revenue from the sale of prepared food to be eaten on or off its premises.

“Ski resort” means: a facility that charges patrons for daily or multi-day access to facilities for skiing and snowboarding in the winter season and bike tours and other recreational activities that require a ticket in the summer season.

“Golf course” means: a facility that charges patrons for green fees and lessons.

A complete listing of tourism businesses within the renewed MLTBID can be found in Appendix 2. Any lodging business, restaurant, retail business, or ski resort that begins doing business within the MLTBID after renewal will be subject to assessment in accordance with this Plan.

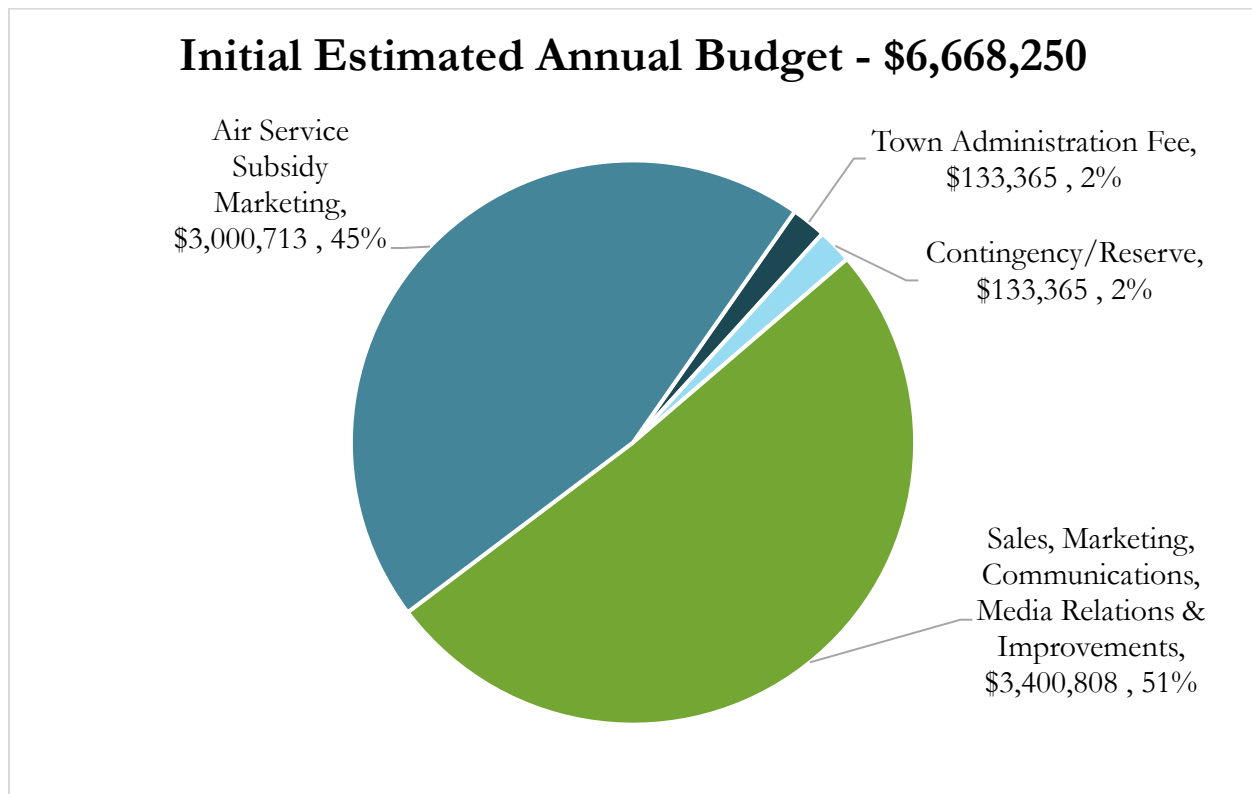

IV. BUDGET AND SERVICES

A. Annual Service Plan

Assessment funds will be spent to provide specific benefits conferred or privileges granted directly to the payors, that are not provided to those not charged, and which do not exceed the reasonable cost to the Town of conferring the benefits or granting the privileges. The privileges and services provided with the MLTBID funds are sales, marketing, media relations, communications and improvements programs and air service marketing and subsidy programs available only to assessed businesses.

A service plan budget has been developed to deliver services that benefit the assessed businesses. A detailed annual budget will be developed by the MLT staff and approved by the MLT Board of Directors. The table below illustrates the initial proposed annual budget allocations. These activities and allocations will also apply in subsequent years. The total estimated initial budget is \$6,668,250.

Although actual revenues will fluctuate due to market conditions, the proportional allocations of the budget shall remain the same. However, the MLT Board shall have the authority to adjust budget allocations between the categories by no more than twenty percent (20%) of the total budget per year to account for market growth or decline. If such adjustment occurs in a fiscal year, the budget allocations between categories will automatically return to the percentages listed above in the subsequent year. A description of the proposed improvements and activities for the initial year of operation is below. The same activities are proposed for subsequent years. In the event of a legal challenge against the MLTBID, any and all assessment funds may be used for the costs of defending the MLTBID.

Each budget category includes all costs related to providing that service. For example, the sales and marketing budget may include the cost of staff time dedicated to overseeing and implementing the

sales and marketing program. Staff time dedicated purely to administrative tasks will be paid for with non-assessment funds. The costs of an individual staff member may be allocated to multiple budget categories. The staffing levels necessary to provide the services below will be determined by the MLT on an as-needed basis.

Sales, Marketing, Communications, Media Relations and Improvements

A sales and marketing program will promote assessed businesses as tourist, meeting, and event destinations. The sales and marketing program will have a central theme of promoting Mammoth Lakes as a desirable place for overnight visits. The program will have the goal of increasing visitation and commerce at assessed businesses year-round, with specific focus during need times, and may include the following activities:

- Internet marketing efforts to increase awareness and optimize internet presence to drive tourism and commerce at assessed businesses;
- Attendance at trade shows to promote assessed businesses;
- Media relations and communications to drive tourism and commerce at assessed businesses;
- Sales blitzes to promote assessed businesses;
- Familiarization tours of assessed businesses;
- Preparation and production of collateral promotional materials such as brochures, flyers and maps featuring assessed businesses;
- Attendance at professional industry conferences and affiliation events to promote assessed businesses;
- Lead generation activities designed to attract tourists and group events to assessed businesses;
- Development and maintenance of a website designed to promote assessed businesses;
- Education of tourism business management and Mammoth Lakes Tourism on marketing strategies best suited to meet the needs of assessed businesses in Mammoth Lakes;
- Promote responsible travel and environmental stewardship through education to destination visitors;
- Support special event producers and promoters through grant funding and marketing efforts;
- Conduct various research studies to understand visitor statistics, advertising awareness and effectiveness, air service traveler demographics and local spending;
- Print ads in magazines and newspapers, television ads, and radio ads targeted at potential destination visitors to drive tourism and commerce at assessed businesses; and
- Improvements that will supplement tourism-related infrastructure designed to increase destination visitation and create or enhance the visitor experience to encourage repeat visits to assessed businesses. Such improvements include those provided in Section 36610 of the Property and Business Improvement District Law of 1994. The MLT Board shall determine eligible improvements by developing criteria based on specific benefit provided directly to assessed businesses. Improvements shall be funded from the assessments derived from ski resorts and golf course businesses and shall be limited to no more than 20% of the total assessment derived from those businesses.

Air Service Marketing and Subsidy

The majority of passengers arriving to the Mammoth Lakes area via air are destination visitors and, on average, stay longer and spend more per visit than drive market visitors. Based on historical averages, seventeen percent (17%) of airline passengers are locals. Further detail on airline passengers is attached as Appendix 4 in a Tourism Economic Impact Report. Tourist-serving businesses depend on customers arriving via air at both Mammoth Yosemite Airport (MMH) and Bishop Airport (BIH), especially given the remote location of Mammoth Lakes when compared to the Southern California

market which provides the bulk of its destination visitors. Air service marketing and subsidy activities and improvements will be designed to increase the number of destination visitors arriving via air and patronizing assessed businesses. Allocations of marketing and subsidies will be based upon the development of comprehensive plans to drive longer stays and higher-spending visitors to assessed business via air service at both MMH and BIH airports. All advertising related to increased air service shall include only assessed businesses and mechanisms will be continued to refer those who respond to these advertising messages to assessed businesses. Funds may only be used to market and subsidize air service to the Mammoth Lakes area airports (MMH and BIH) which increases visitor access to assessed businesses. Services may also include development of air service which increase or improve visitor access to the assessed businesses in Mammoth Lakes. The air subsidy portion of the Air Service Marketing and Subsidy budget shall not exceed 85% of the total Air Service Marketing and Subsidy budget in each budget year. MLTBID funds will not be the sole source of marketing and subsidy funding for BIH and MMH; other funding sources may include county, city or private funding.

Town Administration Fee

The Town of Mammoth Lakes shall retain two percent (2%) of the amount of assessment collected to cover its costs of collection, administration, and costs incurred in pursuing payment of delinquent assessments. Accounting of the two percent (2%) Town administration fee shall be included in the monthly reporting to MLT.

Contingency/Reserve

The budget includes a contingency line item to account for uncollected assessments, if any. If there are contingency funds collected, they may be held in a reserve fund or utilized for other program, administration or renewal costs in accordance with this Plan at the discretion of the MLT Board. At the discretion of the MLT Board, contingency funds may also be used to pay sales tax expenditures, penalties and interest associated with taxes on the MLTBID assessment. Assessed businesses must be in compliance with the California Department of Tax and Fee Administration (CDTFA) and must be considered to be in good standing with the Town of Mammoth Lakes. “Good standing” as used herein means that assessed businesses must have and maintain an active business license in the Town of Mammoth Lakes and must not be considered delinquent in MLTBID remittances. Policies relating to tax expenditures as well as contributions to the reserve fund, the target amount of the reserve fund, and expenditure of monies from the reserve fund shall be set by the MLT Board. Contingency/reserve funds may be spent on District programs or administrative and renewal costs in such proportions as determined by the MLT Board. The reserve fund may be used for the costs of renewing the District.

B. Annual Budget

Based on the benefits received, the assessment rate will be tiered as indicated below in subsection D. The total five (5) year program assessment budget is projected at an initial \$6,668,250 annually, or \$33,341,250 through 2028, as adjusted for inflation with respect to assessments that are based on gross revenue. The assessment budget is expected to fluctuate as visitation does. Any new tourism businesses that commence business within the MLTBID during the five (5) year term shall be assessed using the same methodology listed in subsection D.

C. California Constitutional Compliance

The MLTBID assessment is not a property-based assessment subject to the requirements of Proposition 218. Courts have found Proposition 218 limited the term ‘assessments’ to levies on real property.¹ Rather, the MLTBID assessment is a business-based assessment, and is subject to Proposition 26. Pursuant to Proposition 26 all levies are a tax unless they fit one of seven exceptions.

¹ *Jarvis v. the City of San Diego* 72 Cal App. 4th 230

Two of these exceptions apply to the MLTBID, a “specific benefit” and a “specific government service.” Both require that the costs of benefits or services do not exceed the reasonable costs to the Town of conferring the benefits or providing the services.

1. Specific Benefit

Proposition 26 requires that assessment funds be expended on, “a specific benefit conferred or privilege granted directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege.”² The services in this Plan are designed to provide targeted benefits directly to assessed tourism businesses, and are intended only to provide benefits and services directly to those businesses paying the assessment. These services are tailored not to serve the general public, businesses in general, or parcels of land, but rather to serve the specific businesses within the MLTBID. The activities described in this Plan are specifically targeted to increase commerce for assessed tourism businesses within the boundaries of the MLTBID, and are narrowly tailored. MLTBID funds shall be used exclusively to provide the specific benefit of increased commerce directly to the assesseees. Assessment funds shall not be used to feature non-assessed businesses in MLTBID activities, or to directly generate sales for non-assessed businesses. The activities paid for from assessment revenues are business services constituting and providing specific benefits to the assessed businesses.

The assessment imposed by this MLTBID is for a specific benefit conferred directly to the payors that is not provided to those not charged. The specific benefit conferred directly to the payors is an increase in commerce. The specific benefit of an increase in commerce for assessed tourism businesses shall be provided only to tourism businesses paying the district assessment, with MLTBID activities promoting tourism businesses paying the MLTBID assessment. The MLTBID activities will be designed to increase commerce at each assessed tourism businesses. Because they are necessary to provide the MLTBID activities that specifically benefit the assessed tourism businesses, the administration and contingency services also provide the specific benefit of increased commerce for to the assessed tourism businesses.

Although the MLTBID, in providing specific benefits to payors, may produce incidental benefits to non-paying businesses, the incidental benefit does not preclude the services from being considered a specific benefit. The legislature has found that, “A specific benefit is not excluded from classification as a ‘specific benefit’ merely because an indirect benefit to a nonpayor occurs incidentally and without cost to the payor as a consequence of providing the specific benefit to the payor.”³

2. Specific Government Service

The assessment may also be utilized to provide, “a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.”⁴ The legislature has recognized that marketing and promotions services like those to be provided by the MLTBID are government services within the meaning of Proposition 26⁵. Further, the legislature has determined that “a specific government service is not excluded from classification as a ‘specific government service’ merely because an indirect benefit to a nonpayor occurs incidentally and without cost to the payor as a consequence of providing the specific government service to the payor.”⁶

² Cal. Const. art XIII C § 1(e)(1)

³ Government Code § 53758(a)

⁴ Cal. Const. art XIII C § 1(e)(2)

⁵ Government Code § 53758(b)

⁶ Government Code § 53758(b)

3. Reasonable Cost

MLTBID services will be implemented carefully to ensure they do not exceed the reasonable cost of such services. The full amount assessed will be used to provide the services described herein. Funds will be managed by MLT, and reports submitted on an annual basis to the Town. Only assessed tourism businesses will be featured in marketing materials, receive sales leads generated from district-funded activities, be featured in advertising campaigns, and benefit from other district-funded services. Non-assessed tourism businesses will not receive these, nor any other, district-funded services and benefits beyond those which are incidental.

The MLTBID-funded programs are all targeted directly at and feature only assessed businesses. It is, however, possible that there will be a spill over benefit to non-assessed businesses. If non-assessed tourism businesses receive incremental commerce, that portion of the promotion or program generating that commerce shall be paid with non-District funds. MLTBID funds shall only be spent to benefit the assessed businesses and shall not be spent on that portion of any program which directly generates additional commerce for non-assessed businesses.

D. Assessment

A business which engages in multiple activities will be assessed at the applicable rate for each activity as described below. For example, if a business engages in retail and internet sales, it will pay the assessment on its retail activities only.

1. Lodging Businesses

The annual assessment rate for lodging businesses is one percent (1%) of gross short-term (stays less than 31 days) room rental revenue. Based on the benefit received, assessments will not be collected on stays of more than thirty (30) consecutive days, nor on government employees on government business.

The Term “gross room rental revenue” as used herein means the charge for occupancy of any space in any lodging business and for all charges rendered in connection therewith, including but not limited to cleaning fees or resort fees, in the form of money, goods, services, or similar payment, including, but not limited to, all receipts, cash, credits, goods, property and services of any kind or nature, without any deduction whatsoever, provided that bona fide charges for food and beverages actually consumed shall not be considered gross room rental revenue. Gross room rental revenue shall not include any federal, state or local taxes collected, including but not limited to transient occupancy taxes; nor shall the assessment be considered part of rent for tax purposes. Any other charges required to be paid for occupancy in a lodging business shall be considered gross room rental revenue.

2. Ski Resorts

In addition to assessments for any lodging, restaurant and retail businesses located on their premises, ski resorts shall be assessed for daily and multi-day tickets and bulk ticket packs for winter and summer activities, and ski school revenue. The annual assessment for ski resorts is two and a half percent (2.5%) of gross daily and multi-day tickets and bulk ticket packs for winter and summer activities, and ski school revenues. Daily and multi-day tickets and bulk ticket packs for winter and summer activities that are valid at multiple ski resorts will be assessed for that portion of the sales price that is attributable to the ski resort(s) within the MLTBID boundary.

Tickets: Daily and multi-day tickets and bulk ticket packs used at the resorts for winter and summer related activities within the MLTBID boundary shall be assessed by the MLTBID.

Third Party Consigners: In any instance where a ski resort consigns tickets to third party partners (such as lodging businesses) with the intent that those partners will resell those tickets within the MLTBID boundary, the ski resort shall be assessed for the total consigned priced from the third-party partner based on the negotiated price of the consigned ticket.

Bundled Products: All ski school lessons/packages that are sold and occur within the MLTBID boundary shall be assessed by the MLTBID. For bundled ski resort/lodging products, the ski resort and lodging portions of the bundle will be proportionally assessed their respective MLTBID assessment rates.

The terms “gross ticket sales” and “gross ski school revenues” as used herein mean the amount of the consideration charged or chargeable to the patron for a ski resort ticket, or ski school, valued in money whether received in money, goods, labor, or otherwise, including the full value of receipts, cash, credits, property, or services of any kind or nature, without any deduction whatsoever. Gross ticket sales and ski school revenues shall not include any federal, state, or local taxes collected.

3. Golf Courses

In addition to assessments for any lodging, restaurant and retail businesses located on their premises, golf courses shall be assessed for green fees and lessons. The assessment for golf courses is two and a half percent (2.5%) of gross revenues.

4. Restaurants and Retail Businesses – Tier 1

Tier 1 restaurants and retail businesses are those which have in excess of \$150,000 in annual gross revenue and receive at least half of that gross revenue from visitors. The annual assessment rate for Tier 1 restaurants and retail businesses is one and one-half percent (1.5%) of gross sales, including equipment and vehicle rentals at retail establishments. Retail business assessments will not be collected on non-taxable food items for human consumption.

The term “gross revenue” as used herein means the amount of the consideration charged or chargeable to the patron for the purchase or rental of goods (including food and beverages at restaurants) valued in money, goods, labor, or otherwise, including the full value of receipts, cash, credits, property, or services of any kind or nature, without any deduction whatsoever. Gross revenue shall not include any federal, state, or local taxes collected.

Tier 1 restaurant and retail businesses shall only remit 1.38% of the 1.5% assessment to the Town of Mammoth Lakes; the remaining 0.12% shall be reserved by the business to pay sales tax on the MLTBID assessment. Policies relating to tax expenditures shall be set by the MLT Board.

5. Restaurants and Retail Businesses – Tier 2

Tier 2 restaurants and retail businesses are those which have between \$50,000 to \$150,000 in annual gross revenue or do not receive at least fifty percent (50%) of their annual gross revenue from visitors. The annual assessment rate for Tier 2 restaurants and retail businesses is \$500 per year. Any restaurant or retail business owner who believes their business should be categorized as a Tier 2 business must request a hearing with the MLT Appeals Panel as outlined in paragraph E(4) below.

The term “gross revenue” as used herein means the amount of the consideration charged or chargeable to the patron for the purchase or rental of goods (including food and beverages at restaurants) valued in money, goods, labor, or otherwise, including the full value of receipts, cash, credits, property, or services of any kind or nature, without any deduction whatsoever. Gross revenue shall not include any federal, state, or local taxes collected.

6. Restaurants and Retail Businesses – Tier 3

Tier 3 restaurants and retail businesses are those which have \$49,999 or less in annual gross revenue. The annual assessment rate for Tier 3 restaurants and retail businesses is \$50 per year. Any restaurant or retail business owner who believes their business should be categorized as a Tier 3 business must request a hearing with the MLT Appeals Panel as outlined in paragraph E(4) below.

The term “gross revenue” as used herein means the amount of the consideration charged or chargeable to the patron for the purchase or rental of goods (including food and beverages at restaurants) valued in money, goods, labor, or otherwise, including the full value of receipts, cash, credits, property, or services of any kind or nature, without any deduction whatsoever. Gross revenue shall not include any federal, state, or local taxes collected.

7. Non-Tourist Businesses

Lodging businesses, ski resorts, retail businesses and restaurants which can conclusively demonstrate that they do not receive any revenue from visitors, and therefore do not receive a specific benefit from the MLTBID activities, may be exempted from the assessment by requesting a hearing with the MLT Appeals Panel as outlined in paragraph E(4) below.

8. Nonprofit Organizations

The MLTBID activities are designed to increase commerce at tourist businesses in Mammoth Lakes. Because nonprofit organizations are organized exclusively for charitable, religious, educational and scientific purposes and are not organized for profit, they will not specifically benefit from MLTBID activities and will not be assessed. Any entity which believes they should be categorized as a nonprofit organization must request a hearing with the MLT Appeals Panel as outlined in paragraph E(4) below.

9. Internet Sales Businesses

The MLTBID activities are designed to increase commerce at tourist businesses in Mammoth Lakes. Because internet sales businesses, or the internet portion of a business that is otherwise assessed, do not consummate sales from in person customers (tourists), they will not specifically benefit from MLTBID activities that are designed to increase physical customers in Mammoth Lakes and will not be assessed. Any business owner who believes their business should be categorized as an internet sales business must request a hearing with the MLT Appeals Panel as outlined in paragraph E(4) below.

10. Wholesale Businesses

The MLTBID activities are designed to increase commerce at tourist businesses in Mammoth Lakes. Because wholesale businesses, or the wholesale portion of a business that is otherwise assessed, do not consummate sales from in person customers (tourists), they will not specifically benefit from MLTBID activities that are designed to increase physical customers in Mammoth Lakes and will not be assessed. Any business owner who believes their business should be categorized as a wholesale business must request a hearing with the MLT Appeals Panel as outlined in paragraph E(4) below.

11. Disclosure

The assessment is levied upon and is a direct obligation of the assessed tourism business. However, the assessed tourism business may, at its discretion, pass the assessment on to patrons. The amount of assessment, if passed on to each patron, shall be disclosed in advance and separately stated from the amount of consideration charged and any other applicable taxes, and each patron shall receive a receipt for payment from the business. The assessment shall be clearly disclosed as the “MLTBID Assessment” or “Tourism Assessment.” The assessment is imposed solely upon, and is the sole obligation of the assessed tourism business even if it is passed on to patrons. The assessment shall not

be considered revenue for calculation of transient occupancy taxes. The California Department of Tax and Fee Administration (CDTFA) issued a written opinion that state sales tax applies to the revenue generated from Tourism Business Improvement District (TBID) assessments on items where state sales tax is levied. In light of CDTFA's opinion, businesses that pay both state sales tax and TBID assessments on sales are advised to collect sales tax on the assessment revenue.

12. Bonds

Bonds shall not be issued by the MLTBID or by MLT or the Town on behalf of MLTBID.

E. Penalties and Interest

Assessed businesses which are delinquent in paying the assessment shall be responsible for paying:

1. Original Delinquency

Any business which fails to pay any assessment due within the time required shall pay, in addition to the assessment and any such interest the assessment may accrue, an original delinquency penalty of ten dollars (\$10.00) or fifteen percent (15%) of the amount of the assessment, whichever dollar amount is greater, provided, however, that any business which has not been late in paying any assessment within the preceding three calendar years shall, upon application of the business to the Town within fifteen (15) days after the date the assessment first became due, pay and original delinquency penalty of ten dollars (\$10.00) or a total of one percent (1%) per day of the amount of assessment due for each day the assessment is delinquent, whichever dollar amount is greater. Every penalty imposed and such interest that accrues, shall become part of the assessment required to be paid. Interest shall accrue on all delinquent assessments until paid.

2. Continued Delinquency

Any business which fails to pay any delinquent assessment, penalty, or interest on or after the next business day of the following assessment due date, shall pay an additional delinquency penalty, over above that provided for in the subsection 1 above, of ten dollars (\$10.00) or fifteen percent (15%) of the amount of the assessment, penalties and interest due, whichever is greater.

If the assessment, penalties and interest are not paid within two (2) full remittance periods from the date on which the assessment became delinquent, the Town shall give notice to the business of its intention to initiate a collection action. Written notice shall be deemed given when a copy of the same is enclosed in a sealed envelope with postage thereon fully prepaid and certified in the United States mail and addressed to that address given by the business to the Town. The collection action may be initiated upon lapse of the fifteen (15) days period provided in the notice if all assessments, penalties, and interest are not paid in full within the fifteen (15) day period.

3. Interest

In addition to the penalties imposed, any business who fails to pay any assessment shall pay interest at the rate of one and one-half percent (1.5%) per month or fraction thereof on the amount of the assessment, inclusive of penalties, from the date on which the assessment first became delinquent, until paid.

4. Appeal to Mammoth Lakes Tourism

Any business that wishes to contest its Tier classification may appeal its classification to the TBID Appeal Independent Review Panel (Appeals Panel). Details on the appeals process are provided in Appendix 3.

F. Time and Manner for Collecting Assessments

The MLTBID assessment will be implemented beginning September 1, 2023 and will continue for five (5) years through August 31, 2028. The Town of Mammoth Lakes will be responsible for collecting the assessment (including any delinquencies, penalties and interest) from each tourism business. The assessment will be collected on a monthly basis from those businesses that are assessed a percentage rate; and collected on an annual basis from those businesses that are assessed a fixed amount. The Town shall take all reasonable efforts to collect the assessments from each tourism business. The Town shall forward the assessments, less the two percent (2%) Town Administration Fee, collected to MLT. The Town of Mammoth Lakes will remit payment of MLTBID assessments collected to MLT within thirty (30) days of the close of the collection period as shown on the example schedule below. If the deadline for payment of assessments (20th day of the month) is on a weekend or holiday, the deadline will be the next available business day.

Action	Timing	Example
Collection Period	Month 1	January 1-31
Month 1 Assessments Due to Town of Mammoth Lakes	No Later Than Day 20, Month 2	February 20
Assessments Due Considered Delinquent and Subject to Penalties and Interest	Day 21, Month 2	February 21
Town of Mammoth Lakes Remits Collected Assessments to MLT	30 Days After Close of Collection Period	March 22 (21 on leap years)

V. GOVERNANCE

A. Owners' Association

The Town Council, through adoption of this Management District Plan, has the right, pursuant to Streets and Highways Code §36651, to identify the body that shall implement the proposed program, which shall be the Owners' Association of the MLTBID as defined in Streets and Highways Code §36612. The Town Council has determined that Mammoth Lakes Tourism will continue to serve as the Owners' Association for the MLTBID.

The Mammoth Lakes Tourism board of directors will continue to represent the various assessed businesses. The board will include, at a minimum, the following directors:

- 1 director selected by the Town Council
- 1 director representing Mammoth Mountain Ski Area
- 1 director representing the Mammoth Lakes Chamber of Commerce
- 2 directors representing assessed lodging businesses
- 1 director representing an assessed retail business
- 1 director representing an assessed restaurant business
- 2 directors at-large with an interest in tourism

B. Brown Act and California Public Records Act Compliance

An Owners' Association is a private entity and may not be considered a public entity for any purpose, nor may its board members or staff be considered to be public officials for any purpose. The Owners' Association is, however, subject to government regulations relating to transparency, namely the Ralph M. Brown Act and the California Public Records Act. These regulations are designed to promote public accountability. The Owners' Association acts as a legislative body under the Ralph M. Brown Act (Government Code §54950 et seq.). Thus, meetings of the MLT board and certain committees must be held in compliance with the public notice and other requirements of the Brown Act. Accordingly, the Owners' Association shall publicly report any action taken and the vote or abstention on that action of each member present for the action. The Owners' Association is also subject to the record keeping and disclosure requirements of the California Public Records Act.

C. Annual Report

MLT shall present an annual report at the end of each year of operation to the Town Council pursuant to Streets and Highways Code §36650 (see Appendix 1). The annual report shall include:

- Any proposed changes in the boundaries of the improvement district or in any benefit zones or classification of businesses within the district.
- The improvements and activities to be provided for that fiscal year.
- An estimate of the cost of providing the improvements and the activities for that fiscal year.
- The method and basis of levying the assessment in sufficient detail to allow each business owner to estimate the amount of the assessment to be levied against his or her business for that fiscal year.
- The estimated amount of any surplus or deficit revenues to be carried over from a previous fiscal year.
- The estimated amount of any contributions to be made from sources other than assessments levied pursuant to this part.

APPENDIX 1 – LAW

*** THIS DOCUMENT IS CURRENT THROUGH THE 2022 SUPPLEMENT ***
(ALL 2021 LEGISLATION)

STREETS AND HIGHWAYS CODE DIVISION 18. PARKING PART 7. PROPERTY AND BUSINESS IMPROVEMENT DISTRICT LAW OF 1994

CHAPTER 1. General Provisions

ARTICLE 1. Declarations

36600. Citation of part

This part shall be known and may be cited as the “Property and Business Improvement District Law of 1994.”

36601. Legislative findings and declarations; Legislative guidance

The Legislature finds and declares all of the following:

- (a) Businesses located and operating within business districts in some of this state’s communities are economically disadvantaged, are underutilized, and are unable to attract customers due to inadequate facilities, services, and activities in the business districts.
- (b) It is in the public interest to promote the economic revitalization and physical maintenance of business districts in order to create jobs, attract new businesses, and prevent the erosion of the business districts.
- (c) It is of particular local benefit to allow business districts to fund business related improvements, maintenance, and activities through the levy of assessments upon the businesses or real property that receive benefits from those improvements.
- (d) Assessments levied for the purpose of conferring special benefit upon the real property or a specific benefit upon the businesses in a business district are not taxes for the general benefit of a city, even if property, businesses, or persons not assessed receive incidental or collateral effects that benefit them.
- (e) Property and business improvement districts formed throughout this state have conferred special benefits upon properties and businesses within their districts and have made those properties and businesses more useful by providing the following benefits:
 - (1) Crime reduction. A study by the Rand Corporation has confirmed a 12-percent reduction in the incidence of robbery and an 8-percent reduction in the total incidence of violent crimes within the 30 districts studied.
 - (2) Job creation.
 - (3) Business attraction.
 - (4) Business retention.
 - (5) Economic growth.
 - (6) New investments.
- (f) With the dissolution of redevelopment agencies throughout the state, property and business improvement districts have become even more important tools with which communities can combat blight, promote economic opportunities, and create a clean and safe environment.
- (g) Since the enactment of this act, the people of California have adopted Proposition 218, which added Article XIII D to the Constitution in order to place certain requirements and restrictions on the formation of, and activities, expenditures, and assessments by property-based districts. Article XIII D of the Constitution provides that property-based districts may only levy assessments for special benefits.
- (h) The act amending this section is intended to provide the Legislature’s guidance with regard to this act, its interaction with the provisions of Article XIII D of the Constitution, and the determination of special benefits in property-based districts.
 - (1) The lack of legislative guidance has resulted in uncertainty and inconsistent application of this act, which discourages the use of assessments to fund needed improvements, maintenance, and activities in property-based districts, contributing to blight and other underutilization of property.
 - (2) Activities undertaken for the purpose of conferring special benefits upon property to be assessed inherently produce incidental or collateral effects that benefit property or persons not assessed. Therefore, for special benefits to exist as a separate and distinct category from general benefits, the

incidental or collateral effects of those special benefits are inherently part of those special benefits. The mere fact that special benefits produce incidental or collateral effects that benefit property or persons not assessed does not convert any portion of those special benefits or their incidental or collateral effects into general benefits.

(3) It is of the utmost importance that property-based districts created under this act have clarity regarding restrictions on assessments they may levy and the proper determination of special benefits. Legislative clarity with regard to this act will provide districts with clear instructions and courts with legislative intent regarding restrictions on property-based assessments, and the manner in which special benefits should be determined.

36602. Purpose of part

The purpose of this part is to supplement previously enacted provisions of law that authorize cities to levy assessments within property and business improvement districts, to ensure that those assessments conform to all constitutional requirements and are determined and assessed in accordance with the guidance set forth in this act. This part does not affect or limit any other provisions of law authorizing or providing for the furnishing of improvements or activities or the raising of revenue for these purposes.

36603. Preemption of authority or charter city to adopt ordinances levying assessments

Nothing in this part is intended to preempt the authority of a charter city to adopt ordinances providing for a different method of levying assessments for similar or additional purposes from those set forth in this part. A property and business improvement district created pursuant to this part is expressly exempt from the provisions of the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 (Division 4 (commencing with Section 2800)).

36603.5. Part prevails over conflicting provisions

Any provision of this part that conflicts with any other provision of law shall prevail over the other provision of law, as to districts created under this part.

36604. Severability

This part is intended to be construed liberally and, if any provision is held invalid, the remaining provisions shall remain in full force and effect. Assessments levied under this part are not special taxes.

ARTICLE 2. Definitions

36606. “Activities”

“Activities” means, but is not limited to, all of the following that benefit businesses or real property in the district:

- (a) Promotion of public events.
- (b) Furnishing of music in any public place.
- (c) Promotion of tourism within the district.
- (d) Marketing and economic development, including retail retention and recruitment.
- (e) Providing security, sanitation, graffiti removal, street and sidewalk cleaning, and other municipal services supplemental to those normally provided by the municipality.
- (f) Other services provided for the purpose of conferring special benefit upon assessed real property or specific benefits upon assessed businesses located in the district.

36606.5. “Assessment”

“Assessment” means a levy for the purpose of acquiring, constructing, installing, or maintaining improvements and providing activities that will provide certain benefits to properties or businesses located within a property and business improvement district.

36607. “Business”

“Business” means all types of businesses and includes financial institutions and professions.

36608. “City”

“City” means a city, county, city and county, or an agency or entity created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, the public member agencies of which includes only cities, counties, or a city and county, or the State of California.

36609. “City council”

“City council” means the city council of a city or the board of supervisors of a county, or the agency, commission, or board created pursuant to a joint powers agreement and which is a city within the meaning of this part.

36609.4. “Clerk”

“Clerk” means the clerk of the legislative body.

36609.5. “General benefit”

“General benefit” means, for purposes of a property-based district, any benefit that is not a “special benefit” as defined in Section 36615.5.

36610. “Improvement”

“Improvement” means the acquisition, construction, installation, or maintenance of any tangible property with an estimated useful life of five years or more including, but not limited to, the following:

- (a) Parking facilities.
- (b) Benches, booths, kiosks, display cases, pedestrian shelters and signs.
- (c) Trash receptacles and public restrooms.
- (d) Lighting and heating facilities.
- (e) Decorations.
- (f) Parks.
- (g) Fountains.
- (h) Planting areas.
- (i) Closing, opening, widening, or narrowing of existing streets.
- (j) Facilities or equipment, or both, to enhance security of persons and property within the district.
- (k) Ramps, sidewalks, plazas, and pedestrian malls.
- (l) Rehabilitation or removal of existing structures.

36611. “Management district plan”; “Plan”

“Management district plan” or “plan” means a proposal as defined in Section 36622.

36612. “Owners’ association”

“Owners’ association” means a private nonprofit entity that is under contract with a city to administer or implement improvements, maintenance, and activities specified in the management district plan. An owners’ association may be an existing nonprofit entity or a newly formed nonprofit entity. An owners’ association is a private entity and may not be considered a public entity for any purpose, nor may its board members or staff be considered to be public officials for any purpose. Notwithstanding this section, an owners’ association shall comply with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code), at all times when matters within the subject matter of the district are heard, discussed, or deliberated, and with the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1 of the Government Code), for all records relating to activities of the district.

36614. “Property”

“Property” means real property situated within a district.

36614.5. “Property and business improvement district”; “District”

“Property and business improvement district,” or “district,” means a property and business improvement district established pursuant to this part.

36614.6. “Property-based assessment”

“Property-based assessment” means any assessment made pursuant to this part upon real property.

36614.7. “Property-based district”

“Property-based district” means any district in which a city levies a property-based assessment.

36615. “Property owner”; “Business owner”; “Owner”

“Property owner” means any person shown as the owner of land on the last equalized assessment roll or otherwise known to be the owner of land by the city council. “Business owner” means any person recognized by the city as the owner of the business. “Owner” means either a business owner or a property owner. The city council has no obligation to obtain other information as to the ownership of land or businesses, and its determination of ownership shall be final and conclusive for the purposes of this part. Wherever this part requires the signature of the property owner, the signature of the authorized agent of the property owner shall be sufficient. Wherever this part requires the signature of the business owner, the signature of the authorized agent of the business owner shall be sufficient.

36615.5. “Special benefit”

“Special benefit” means, for purposes of a property-based district, a particular and distinct benefit over and above general benefits conferred on real property located in a district or to the public at large. Special benefit includes incidental or collateral effects that arise from the improvements, maintenance, or activities of property-based districts even if those incidental or collateral effects benefit property or persons not assessed. Special benefit excludes general enhancement of property value.

36616. “Tenant”

“Tenant” means an occupant pursuant to a lease of commercial space or a dwelling unit, other than an owner.

ARTICLE 3. Prior Law

36617. Alternate method of financing certain improvements and activities; Effect on other provisions

This part provides an alternative method of financing certain improvements and activities. The provisions of this part shall not affect or limit any other provisions of law authorizing or providing for the furnishing of improvements or activities or the raising of revenue for these purposes. Every improvement area established pursuant to the Parking and Business Improvement Area Law of 1989 (Part 6 (commencing with Section 36500) of this division) is valid and effective and is unaffected by this part.

CHAPTER 2. Establishment

36620. Establishment of property and business improvement district

A property and business improvement district may be established as provided in this chapter.

36620.5. Requirement of consent of city council

A county may not form a district within the territorial jurisdiction of a city without the consent of the city council of that city. A city may not form a district within the unincorporated territory of a county without the consent of the board of supervisors of that county. A city may not form a district within the territorial jurisdiction of another city without the consent of the city council of the other city.

36621. Initiation of proceedings; Petition of property or business owners in proposed district

- (a) Upon the submission of a written petition, signed by the property or business owners in the proposed district who will pay more than 50 percent of the assessments proposed to be levied, the city council may initiate proceedings to form a district by the adoption of a resolution expressing its intention to form a district. The amount of assessment attributable to property or a business owned by the same property or business owner that is in excess of 40 percent of the amount of all assessments proposed to be levied, shall not be included in determining whether the petition is signed by property or business owners who will pay more than 50 percent of the total amount of assessments proposed to be levied.
- (b) The petition of property or business owners required under subdivision (a) shall include a summary of the management district plan. That summary shall include all of the following:
 - (1) A map showing the boundaries of the district.
 - (2) Information specifying where the complete management district plan can be obtained.
 - (3) Information specifying that the complete management district plan shall be furnished upon request.
- (c) The resolution of intention described in subdivision (a) shall contain all of the following:
 - (1) A brief description of the proposed improvements, maintenance, and activities, the amount of the proposed assessment, a statement as to whether the assessment will be levied on property or businesses within the district, a statement as to whether bonds will be issued, and a description of the exterior boundaries of the proposed district, which may be made by reference to any plan or map that is on file with the clerk. The descriptions and statements do not need to be detailed and shall be sufficient if they enable an owner to generally identify the nature and extent of the improvements, maintenance, and activities, and the location and extent of the proposed district.
 - (2) A time and place for a public hearing on the establishment of the property and business improvement district and the levy of assessments, which shall be consistent with the requirements of Section 36623.

36622. Contents of management district plan

The management district plan shall include, but is not limited to, all of the following:

- (a) If the assessment will be levied on property, a map of the district in sufficient detail to locate each parcel of property and, if businesses are to be assessed, each business within the district. If the assessment will be levied on businesses, a map that identifies the district boundaries in sufficient detail to allow a business owner to reasonably determine whether a business is located within the district boundaries. If the assessment will be levied on property and businesses, a map of the district in sufficient detail to locate each parcel of property and to allow a business owner to reasonably determine whether a business is located within the district boundaries.
- (b) The name of the proposed district.
- (c) A description of the boundaries of the district, including the boundaries of benefit zones, proposed for establishment or extension in a manner sufficient to identify the affected property and businesses included, which may be made by reference to any plan or map that is on file with the clerk. The boundaries of a proposed property assessment district shall not overlap with the boundaries of another existing property assessment district created pursuant to this part. This part does not prohibit the boundaries of a district created pursuant to this part to overlap with other assessment districts established pursuant to other provisions of law, including, but not limited to, the Parking and Business Improvement Area Law of 1989 (Part 6 (commencing with Section 36500)). This part does not prohibit the boundaries of a business assessment district created pursuant to this part to overlap with another business assessment district created pursuant to this part. This part does not prohibit the boundaries of a business assessment district created pursuant to this part to overlap with a property assessment district created pursuant to this part.
- (d) The improvements, maintenance, and activities proposed for each year of operation of the district and the maximum cost thereof. If the improvements, maintenance, and activities proposed for each year of operation are the same, a description of the first year's proposed improvements, maintenance, and activities and a statement that the same improvements, maintenance, and activities are proposed for subsequent years shall satisfy the requirements of this subdivision.
- (e) The total annual amount proposed to be expended for improvements, maintenance, or activities, and debt service in each year of operation of the district. If the assessment is levied on businesses, this amount may be estimated based upon the assessment rate. If the total annual amount proposed to be expended in each year of operation of the district is not significantly different, the amount proposed to be expended in the initial

year and a statement that a similar amount applies to subsequent years shall satisfy the requirements of this subdivision.

(f) The proposed source or sources of financing, including the proposed method and basis of levying the assessment in sufficient detail to allow each property or business owner to calculate the amount of the assessment to be levied against his or her property or business. The plan also shall state whether bonds will be issued to finance improvements.

(g) The time and manner of collecting the assessments.

(h) The specific number of years in which assessments will be levied. In a new district, the maximum number of years shall be five. Upon renewal, a district shall have a term not to exceed 10 years. Notwithstanding these limitations, a district created pursuant to this part to finance capital improvements with bonds may levy assessments until the maximum maturity of the bonds. The management district plan may set forth specific increases in assessments for each year of operation of the district.

(i) The proposed time for implementation and completion of the management district plan.

(j) Any proposed rules and regulations to be applicable to the district.

(k)

(1) A list of the properties or businesses to be assessed, including the assessor's parcel numbers for properties to be assessed, and a statement of the method or methods by which the expenses of a district will be imposed upon benefited real property or businesses, in proportion to the benefit received by the property or business, to defray the cost thereof.

(2) In a property-based district, the proportionate special benefit derived by each identified parcel shall be determined exclusively in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the activities. An assessment shall not be imposed on any parcel that exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and a property-based district shall separate the general benefits, if any, from the special benefits conferred on a parcel. Parcels within a property-based district that are owned or used by any city, public agency, the State of California, or the United States shall not be exempt from assessment unless the governmental entity can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit. The value of any incidental, secondary, or collateral effects that arise from the improvements, maintenance, or activities of a property-based district and that benefit property or persons not assessed shall not be deducted from the entirety of the cost of any special benefit or affect the proportionate special benefit derived by each identified parcel.

(l) In a property-based district, the total amount of all special benefits to be conferred upon the properties located within the property-based district.

(m) In a property-based district, the total amount of general benefits, if any.

(n) In a property-based district, a detailed engineer's report prepared by a registered professional engineer certified by the State of California supporting all assessments contemplated by the management district plan.

(o) Any other item or matter required to be incorporated therein by the city council.

36623. Procedure to levy assessment

(a) If a city council proposes to levy a new or increased property assessment, the notice and protest and hearing procedure shall comply with Section 53753 of the Government Code.

(b) If a city council proposes to levy a new or increased business assessment, the notice and protest and hearing procedure shall comply with Section 54954.6 of the Government Code, except that notice shall be mailed to the owners of the businesses proposed to be assessed. A protest may be made orally or in writing by any interested person. Every written protest shall be filed with the clerk at or before the time fixed for the public hearing. The city council may waive any irregularity in the form or content of any written protest. A written protest may be withdrawn in writing at any time before the conclusion of the public hearing. Each written protest shall contain a description of the business in which the person subscribing the protest is interested sufficient to identify the business and, if a person subscribing is not shown on the official records of the city as the owner of the business, the protest shall contain or be accompanied by written evidence that the person subscribing is the owner of the business or the authorized representative. A written protest that does not comply with this section shall not be counted in determining a majority protest. If written protests are received from the owners or authorized representatives of businesses in the proposed district that will pay 50 percent or more of the assessments proposed to be levied and protests are not withdrawn so as to reduce the protests to less than 50 percent, no further proceedings to levy the proposed assessment against such

businesses, as contained in the resolution of intention, shall be taken for a period of one year from the date of the finding of a majority protest by the city council.

(c) If a city council proposes to conduct a single proceeding to levy both a new or increased property assessment and a new or increased business assessment, the notice and protest and hearing procedure for the property assessment shall comply with subdivision (a), and the notice and protest and hearing procedure for the business assessment shall comply with subdivision (b). If a majority protest is received from either the property or business owners, that respective portion of the assessment shall not be levied. The remaining portion of the assessment may be levied unless the improvement or other special benefit was proposed to be funded by assessing both property and business owners.

36624. Changes to proposed assessments

At the conclusion of the public hearing to establish the district, the city council may adopt, revise, change, reduce, or modify the proposed assessment or the type or types of improvements, maintenance, and activities to be funded with the revenues from the assessments. Proposed assessments may only be revised by reducing any or all of them. At the public hearing, the city council may only make changes in, to, or from the boundaries of the proposed property and business improvement district that will exclude territory that will not benefit from the proposed improvements, maintenance, and activities. Any modifications, revisions, reductions, or changes to the proposed assessment district shall be reflected in the notice and map recorded pursuant to Section 36627.

36625. Resolution of formation

(a) If the city council, following the public hearing, decides to establish a proposed property and business improvement district, the city council shall adopt a resolution of formation that shall include, but is not limited to, all of the following:

(1) A brief description of the proposed improvements, maintenance, and activities, the amount of the proposed assessment, a statement as to whether the assessment will be levied on property, businesses, or both within the district, a statement on whether bonds will be issued, and a description of the exterior boundaries of the proposed district, which may be made by reference to any plan or map that is on file with the clerk. The descriptions and statements need not be detailed and shall be sufficient if they enable an owner to generally identify the nature and extent of the improvements, maintenance, and activities and the location and extent of the proposed district.

(2) The number, date of adoption, and title of the resolution of intention.

(3) The time and place where the public hearing was held concerning the establishment of the district.

(4) A determination regarding any protests received. The city shall not establish the district or levy assessments if a majority protest was received.

(5) A statement that the properties, businesses, or properties and businesses in the district established by the resolution shall be subject to any amendments to this part.

(6) A statement that the improvements, maintenance, and activities to be conferred on businesses and properties in the district will be funded by the levy of the assessments. The revenue from the levy of assessments within a district shall not be used to provide improvements, maintenance, or activities outside the district or for any purpose other than the purposes specified in the resolution of intention, as modified by the city council at the hearing concerning establishment of the district. Notwithstanding the foregoing, improvements and activities that must be provided outside the district boundaries to create a special or specific benefit to the assessed parcels or businesses may be provided, but shall be limited to marketing or signage pointing to the district.

(7) A finding that the property or businesses within the area of the property and business improvement district will be benefited by the improvements, maintenance, and activities funded by the proposed assessments, and, for a property-based district, that property within the district will receive a special benefit.

(8) In a property-based district, the total amount of all special benefits to be conferred on the properties within the property-based district.

(b) The adoption of the resolution of formation and, if required, recordation of the notice and map pursuant to Section 36627 shall constitute the levy of an assessment in each of the fiscal years referred to in the management district plan.

36627. Notice and assessment diagram

Following adoption of the resolution establishing district assessments on properties pursuant to Section 36625, the clerk shall record a notice and an assessment diagram pursuant to Section 3114. No other provision of Division 4.5 (commencing with Section 3100) applies to an assessment district created pursuant to this part.

36628. Establishment of separate benefit zones within district; Categories of businesses

The city council may establish one or more separate benefit zones within the district based upon the degree of benefit derived from the improvements or activities to be provided within the benefit zone and may impose a different assessment within each benefit zone. If the assessment is to be levied on businesses, the city council may also define categories of businesses based upon the degree of benefit that each will derive from the improvements or activities to be provided within the district and may impose a different assessment or rate of assessment on each category of business, or on each category of business within each zone.

36628.5. Assessments on businesses or property owners

The city council may levy assessments on businesses or on property owners, or a combination of the two, pursuant to this part. The city council shall structure the assessments in whatever manner it determines corresponds with the distribution of benefits from the proposed improvements, maintenance, and activities, provided that any property-based assessment conforms with the requirements set forth in paragraph (2) of subdivision (k) of Section 36622.

36629. Provisions and procedures applicable to benefit zones and business categories

All provisions of this part applicable to the establishment, modification, or disestablishment of a property and business improvement district apply to the establishment, modification, or disestablishment of benefit zones or categories of business. The city council shall, to establish, modify, or disestablish a benefit zone or category of business, follow the procedure to establish, modify, or disestablish a property and business improvement district.

36630. Expiration of district; Creation of new district

If a property and business improvement district expires due to the time limit set pursuant to subdivision (h) of Section 36622, a new management district plan may be created and the district may be renewed pursuant to this part.

CHAPTER 3. Assessments

36631. Time and manner of collection of assessments; Delinquent payments

The collection of the assessments levied pursuant to this part shall be made at the time and in the manner set forth by the city council in the resolution levying the assessment. Assessments levied on real property may be collected at the same time and in the same manner as for the ad valorem property tax, and may provide for the same lien priority and penalties for delinquent payment. All delinquent payments for assessments levied pursuant to this part may be charged interest and penalties.

36632. Assessments to be based on estimated benefit; Classification of real property and businesses; Exclusion of residential and agricultural property

- (a) The assessments levied on real property pursuant to this part shall be levied on the basis of the estimated benefit to the real property within the property and business improvement district. The city council may classify properties for purposes of determining the benefit to property of the improvements and activities provided pursuant to this part.
- (b) Assessments levied on businesses pursuant to this part shall be levied on the basis of the estimated benefit to the businesses within the property and business improvement district. The city council may classify businesses for purposes of determining the benefit to the businesses of the improvements and activities provided pursuant to this part.
- (c) Properties zoned solely for residential use, or that are zoned for agricultural use, are conclusively presumed not to benefit from the improvements and service funded through these assessments, and shall not be subject to any assessment pursuant to this part.

36633. Time for contesting validity of assessment

The validity of an assessment levied under this part shall not be contested in an action or proceeding unless the action or proceeding is commenced within 30 days after the resolution levying the assessment is adopted pursuant to Section 36625. An appeal from a final judgment in an action or proceeding shall be perfected within 30 days after the entry of judgment.

36634. Service contracts authorized to establish levels of city services

The city council may execute baseline service contracts that would establish levels of city services that would continue after a property and business improvement district has been formed.

36635. Request to modify management district plan

The owners' association may, at any time, request that the city council modify the management district plan. Any modification of the management district plan shall be made pursuant to this chapter.

36636. Modification of plan by resolution after public hearing; Adoption of resolution of intention

(a) Upon the written request of the owners' association, the city council may modify the management district plan after conducting one public hearing on the proposed modifications. The city council may modify the improvements and activities to be funded with the revenue derived from the levy of the assessments by adopting a resolution determining to make the modifications after holding a public hearing on the proposed modifications. If the modification includes the levy of a new or increased assessment, the city council shall comply with Section 36623. Notice of all other public hearings pursuant to this section shall comply with both of the following:

(1) The resolution of intention shall be published in a newspaper of general circulation in the city once at least seven days before the public hearing.

(2) A complete copy of the resolution of intention shall be mailed by first class mail, at least 10 days before the public hearing, to each business owner or property owner affected by the proposed modification.

(b) The city council shall adopt a resolution of intention which states the proposed modification prior to the public hearing required by this section. The public hearing shall be held not more than 90 days after the adoption of the resolution of intention.

36637. Reflection of modification in notices recorded and maps

Any subsequent modification of the resolution shall be reflected in subsequent notices and maps recorded pursuant to Division 4.5 (commencing with Section 3100), in a manner consistent with the provisions of Section 36627.

CHAPTER 3.5. Financing

36640. Bonds authorized; Procedure; Restriction on reduction or termination of assessments

(a) The city council may, by resolution, determine and declare that bonds shall be issued to finance the estimated cost of some or all of the proposed improvements described in the resolution of formation adopted pursuant to Section 36625, if the resolution of formation adopted pursuant to that section provides for the issuance of bonds, under the Improvement Bond Act of 1915 (Division 10 (commencing with Section 8500)) or in conjunction with Marks-Roos Local Bond Pooling Act of 1985 (Article 4 (commencing with Section 6584) of Chapter 5 of Division 7 of Title 1 of the Government Code). Either act, as the case may be, shall govern the proceedings relating to the issuance of bonds, although proceedings under the Bond Act of 1915 may be modified by the city council as necessary to accommodate assessments levied upon business pursuant to this part.

(b) The resolution adopted pursuant to subdivision (a) shall generally describe the proposed improvements specified in the resolution of formation adopted pursuant to Section 36625, set forth the estimated cost of those improvements, specify the number of annual installments and the fiscal years during which they are to

be collected. The amount of debt service to retire the bonds shall not exceed the amount of revenue estimated to be raised from assessments over 30 years.

(c) Notwithstanding any other provision of this part, assessments levied to pay the principal and interest on any bond issued pursuant to this section shall not be reduced or terminated if doing so would interfere with the timely retirement of the debt.

CHAPTER 4. Governance

36650. Report by owners' association; Approval or modification by city council

(a) The owners' association shall cause to be prepared a report for each fiscal year, except the first year, for which assessments are to be levied and collected to pay the costs of the improvements, maintenance, and activities described in the report. The owners' association's first report shall be due after the first year of operation of the district. The report may propose changes, including, but not limited to, the boundaries of the property and business improvement district or any benefit zones within the district, the basis and method of levying the assessments, and any changes in the classification of property, including any categories of business, if a classification is used.

(b) The report shall be filed with the clerk and shall refer to the property and business improvement district by name, specify the fiscal year to which the report applies, and, with respect to that fiscal year, shall contain all of the following information:

(1) Any proposed changes in the boundaries of the property and business improvement district or in any benefit zones or classification of property or businesses within the district.

(2) The improvements, maintenance, and activities to be provided for that fiscal year.

(3) An estimate of the cost of providing the improvements, maintenance, and activities for that fiscal year.

(4) The method and basis of levying the assessment in sufficient detail to allow each real property or business owner, as appropriate, to estimate the amount of the assessment to be levied against his or her property or business for that fiscal year.

(5) The estimated amount of any surplus or deficit revenues to be carried over from a previous fiscal year.

(6) The estimated amount of any contributions to be made from sources other than assessments levied pursuant to this part.

(c) The city council may approve the report as filed by the owners' association or may modify any particular contained in the report and approve it as modified. Any modification shall be made pursuant to Sections 36635 and 36636.

The city council shall not approve a change in the basis and method of levying assessments that would impair an authorized or executed contract to be paid from the revenues derived from the levy of assessments, including any commitment to pay principal and interest on any bonds issued on behalf of the district.

36651. Designation of owners' association to provide improvements, maintenance, and activities

The management district plan may, but is not required to, state that an owners' association will provide the improvements, maintenance, and activities described in the management district plan. If the management district plan designates an owners' association, the city shall contract with the designated nonprofit corporation to provide services.

CHAPTER 5. Renewal

36660. Renewal of district; Transfer or refund of remaining revenues; District term limit

(a) Any district previously established whose term has expired, or will expire, may be renewed by following the procedures for establishment as provided in this chapter.

(b) Upon renewal, any remaining revenues derived from the levy of assessments, or any revenues derived from the sale of assets acquired with the revenues, shall be transferred to the renewed district. If the renewed district includes additional parcels or businesses not included in the prior district, the remaining revenues shall be spent to benefit only the parcels or businesses in the prior district. If the renewed district does not include parcels or businesses included in the prior district, the remaining revenues attributable to these parcels shall be refunded to the owners of these parcels or businesses.

(c) Upon renewal, a district shall have a term not to exceed 10 years, or, if the district is authorized to issue bonds, until the maximum maturity of those bonds. There is no requirement that the boundaries, assessments, improvements, or activities of a renewed district be the same as the original or prior district.

CHAPTER 6. Disestablishment

36670. Circumstances permitting disestablishment of district; Procedure

(a) Any district established or extended pursuant to the provisions of this part, where there is no indebtedness, outstanding and unpaid, incurred to accomplish any of the purposes of the district, may be disestablished by resolution by the city council in either of the following circumstances:

(1) If the city council finds there has been misappropriation of funds, malfeasance, or a violation of law in connection with the management of the district, it shall notice a hearing on disestablishment.

(2) During the operation of the district, there shall be a 30-day period each year in which assesses may request disestablishment of the district. The first such period shall begin one year after the date of establishment of the district and shall continue for 30 days. The next such 30-day period shall begin two years after the date of the establishment of the district. Each successive year of operation of the district shall have such a 30-day period. Upon the written petition of the owners or authorized representatives of real property or the owners or authorized representatives of businesses in the district who pay 50 percent or more of the assessments levied, the city council shall pass a resolution of intention to disestablish the district. The city council shall notice a hearing on disestablishment.

(b) The city council shall adopt a resolution of intention to disestablish the district prior to the public hearing required by this section. The resolution shall state the reason for the disestablishment, shall state the time and place of the public hearing, and shall contain a proposal to dispose of any assets acquired with the revenues of the assessments levied within the property and business improvement district. The notice of the hearing on disestablishment required by this section shall be given by mail to the property owner of each parcel or to the owner of each business subject to assessment in the district, as appropriate. The city shall conduct the public hearing not less than 30 days after mailing the notice to the property or business owners. The public hearing shall be held not more than 60 days after the adoption of the resolution of intention.

36671. Refund of remaining revenues upon disestablishment or expiration without renewal of district; Calculation of refund; Use of outstanding revenue collected after disestablishment of district

(a) Upon the disestablishment or expiration without renewal of a district, any remaining revenues, after all outstanding debts are paid, derived from the levy of assessments, or derived from the sale of assets acquired with the revenues, or from bond reserve or construction funds, shall be refunded to the owners of the property or businesses then located and operating within the district in which assessments were levied by applying the same method and basis that was used to calculate the assessments levied in the fiscal year in which the district is disestablished or expires. All outstanding assessment revenue collected after disestablishment shall be spent on improvements and activities specified in the management district plan.

(b) If the disestablishment occurs before an assessment is levied for the fiscal year, the method and basis that was used to calculate the assessments levied in the immediate prior fiscal year shall be used to calculate the amount of any refund.

APPENDIX 3 – APPEALS PANEL

The appeals process described below illustrates the current appeals process adopted by the MLT Board. The MLT Board may modify this process in the future as it deems necessary. Modification of this process is not considered a modification of this Plan for purposes of Streets and Highways Code section 36636.

a. Appeals Panel Criteria

The Appeals Panel will consist of three (3) MLT staff members designated by the MLT Board Chair, one being the MLT Executive Director. The Chair will consider any potential conflicts of interest when designating the members of the Appeals Panel. An appellant business wishing to further appeal the decision of the Appeals Panel may do so at the next regular meeting of MLT Board of Directors. The MLT Board of Directors may review the recommendation of the Appeals Panel and shall only consider the evidence provided to the Appeals Panel. All MLT Board of Directors decisions regarding appeals shall be final.

b. Process and Protocol

i. Requests: Requests for an appeal can be submitted by any of the following three methods:

- a. Emailing info@visitmammoth.com
- b. Mailing to PO Box 48, Mammoth Lakes, CA 93546
- c. Hand-delivering to the Mammoth Lakes Tourism offices at 2520 Main Street, Mammoth Lakes, CA 93546

ii. Timeline for Appeals: Unless there has been a documented change in business revenue, tier classification appeals shall be heard every three years, between September 1 – October 31, 2023, September 1 – October 31, 2026, September 1 – October 31 2029, and September 1 – October 31, 2032.. Exemption appeals may be heard at any time. Appeals based on a change in business revenues may be heard each year.

iii. Annual Appeal: If a business successfully appeals their Tier classification or their percentage of revenue derived from residents, a review of the appeal will be conducted during the next appeal term. Businesses are required to re-appeal during each appeal term. All businesses shall be assessed their current Tier assessment according to revenue as of September 1 each year. The appealing business' assessment rate shall not be adjusted until a successful appeal is heard during the September 1 through October 31 triennial appeal period.

c. Criteria for MLTBID Appeal Consideration (retail and restaurant businesses only)

i. Tier 2: An appealing business must provide verifiable Internal Revenue Service (IRS) tax documentation showing that the business' annual gross revenue is between \$50,000 and \$150,000 from the previous calendar year. If successfully appealed, Tier 2 businesses will be invoiced within 30 days of the appeal decision, for the \$500 annual assessment. Alternatively, an appealing business may provide verifiable information showing that more than fifty percent (50%) of annual gross revenues are derived from residents of the zip code 93546.

ii. Tier 3: An appealing business must provide Internal Revenue Service tax documentation from the previous calendar year showing that the business' annual gross revenue is \$49,999 or less. If successfully appealed, Tier 3 businesses will be invoiced in January each year by the Town of Mammoth Lakes with their business license billing, for the \$50 annual assessment.

iii. Examples of Acceptable "Verifiable Information":

- Annual Internal Revenue Service tax documents – this is the **ONLY** acceptable verifiable information for businesses appealing based on annual gross revenues;
- Charge accounts (majority zip code 93456 i.e. hardware stores);

- “Locals” specific pricing that shows more than fifty percent (50%) of annual gross revenues are contributed by residents of the zip code 93456;
- Database zip code analysis – tied to revenues;
- Credit card zip code analysis – tied to revenues; and
- Product delivery records showing revenues for products delivered to zip code 93456 addresses making up more than fifty percent (50%) of overall annual gross revenues.

iv. Exemptions – Appeal Panel Decision Still Required

The following businesses are exempt from paying the MLTBID assessment. If any of the businesses listed are currently being assessed, such a business must appeal their classification before the Appeals Panel. If successfully appealed, an exempt business shall be refunded any assessment paid during the period in which it should have been classified as exempt.

- Non-tourism businesses that can conclusively demonstrate that they do not receive **ANY** revenue from visitors;
- Non-profit organizations (Internal Revenue Service non-profit determination letter required for appeal);
- Fuel source businesses (gasoline, propane, wood, pellets, oil, etc.)
- Utility provider businesses;
- Wholesales items to other businesses for final sale to consumers;
- Internet sales businesses;
- Non-taxable food items for human consumption;
- Government managed lodging (campgrounds); and
- Government employee lodging stays.

Non-tourism businesses and non-profit organizations who successfully appeal do not need to re-appeal within the five (5) year term unless their status changes.

v. New Retail and Restaurant Businesses

All retail and restaurant businesses applying for new Town of Mammoth Lakes business licenses shall collect and remit MLTBID assessments each month for their designated segment for at least one year as a Tier 1 business (first full tax year they are in business) before being eligible for appeal to Tier 2 or 3. If a business is reclassified as Tier 2 or 3, the business will be refunded any assessment paid in excess of their Tier classification within the last Fiscal Year. New retail and restaurant businesses will be assessed at one and one-half percent (1.5%) of annual gross revenue until they have been in business for one full tax year, at which time they may appeal to be classified as a Tier 2 or Tier 3 business based on annual gross revenues. New retail and restaurant businesses must complete at least one full year (first 12 months they are in business) before they may appeal to be classified as Tier 2 based on more than fifty percent (50%) of their annual gross revenue being derived from residents of the zip code 93546.

vi. Examples

- Example of Business Reclassification from Tier 2 to Tier 1: If a business’ annual gross revenue increases from \$135,000 to \$175,000 they will be reviewed triennially between September 1 – October 31 and will be reclassified from Tier 2 to Tier 1 and go from being assessed \$500 annually to being assessed 1.5% of annual gross revenue, remitted monthly. The business will have paid their Tier 2 \$500 annual assessment on September 1 and will need to show their gross revenue for September and October to determine the amount

- owed at the 1.5% assessment rate. Whatever amount owed at the 1.5% assessment rate will be debited from the \$500 paid on September 1. The business will be assessed more if the amount owed exceeds the \$500 already paid. If the amount of the assessment is less than the \$500 already paid, the business will be rebated, or credited for the remainder. In other words, if they move up to Tier 1 and have paid the Tier 2 annual fee of \$500, but through calculation of their gross revenues for September and October only would have owed \$350 at the 1.5% assessment rate – they would then be rebated or credited \$150 for over payment. Starting November 1, the business will be required to remit monthly at the 1.5% rate moving forward.
- ii. Example of Business Reclassification from Tier 3 to Tier 2: If a business' annual gross revenue increases from \$45,000 to \$135,000 they will be reviewed annually between September 1 – October 31 and will be reclassified from Tier 3 to Tier 2 and go from being assessed \$50 annually to being assessed \$500 annually. The business will have paid their Tier 3 \$50 annual fee on September 1 and will need to remit the additional \$450 owed for the annual \$500 Tier 2 fee. This will be payable by November 1.
 - iii. Example of Business Reclassification from Tier 1 to Tier 2: If a business' annual gross revenue decreases from \$175,000 to \$135,000 they may appeal to be reclassified from Tier 1 to Tier 2 after providing verifiable IRS documentation from the previous calendar year and go from being assessed 1.5% of annual gross revenue to being assessed \$500 annually. The business will have paid at Tier 1 level for September and possibly October and whatever amount paid will be credited towards the \$500 assessment for the upcoming year. If the business falls short of \$500 in the September and October time frame while paying Tier 1, the difference will be due November 1. If the business has paid more than the \$500 in the September and October time frame while paying Tier 1, the overage will be refunded. In other words, if they successfully appeal to Tier 2 but have only paid \$350 in assessment – they would then owe \$150 to fulfill the Tier 2 \$500 annual assessment.
 - iv. Example of Business Reclassification from Tier 2 to Tier 3: If a business' annual gross revenue decreases from \$135,000 to \$45,000 they may appeal to be reclassified from Tier 2 to Tier 3 and go from being assessed \$500 annually to being assessed \$50 annually. The business will have paid at Tier 2 level \$500 assessment for the upcoming year and upon successful appeal will be rebated \$450.
 - v. A business appealing from Tier 1 to Tier 2, or Tier 2 to Tier 3, will need to appeal triennially to show they are still within their designated tier classification. If the business revenue has grown back over \$150,000 or \$50,000 annually they will be re-classified back to their respective tiers.

1 Introduction

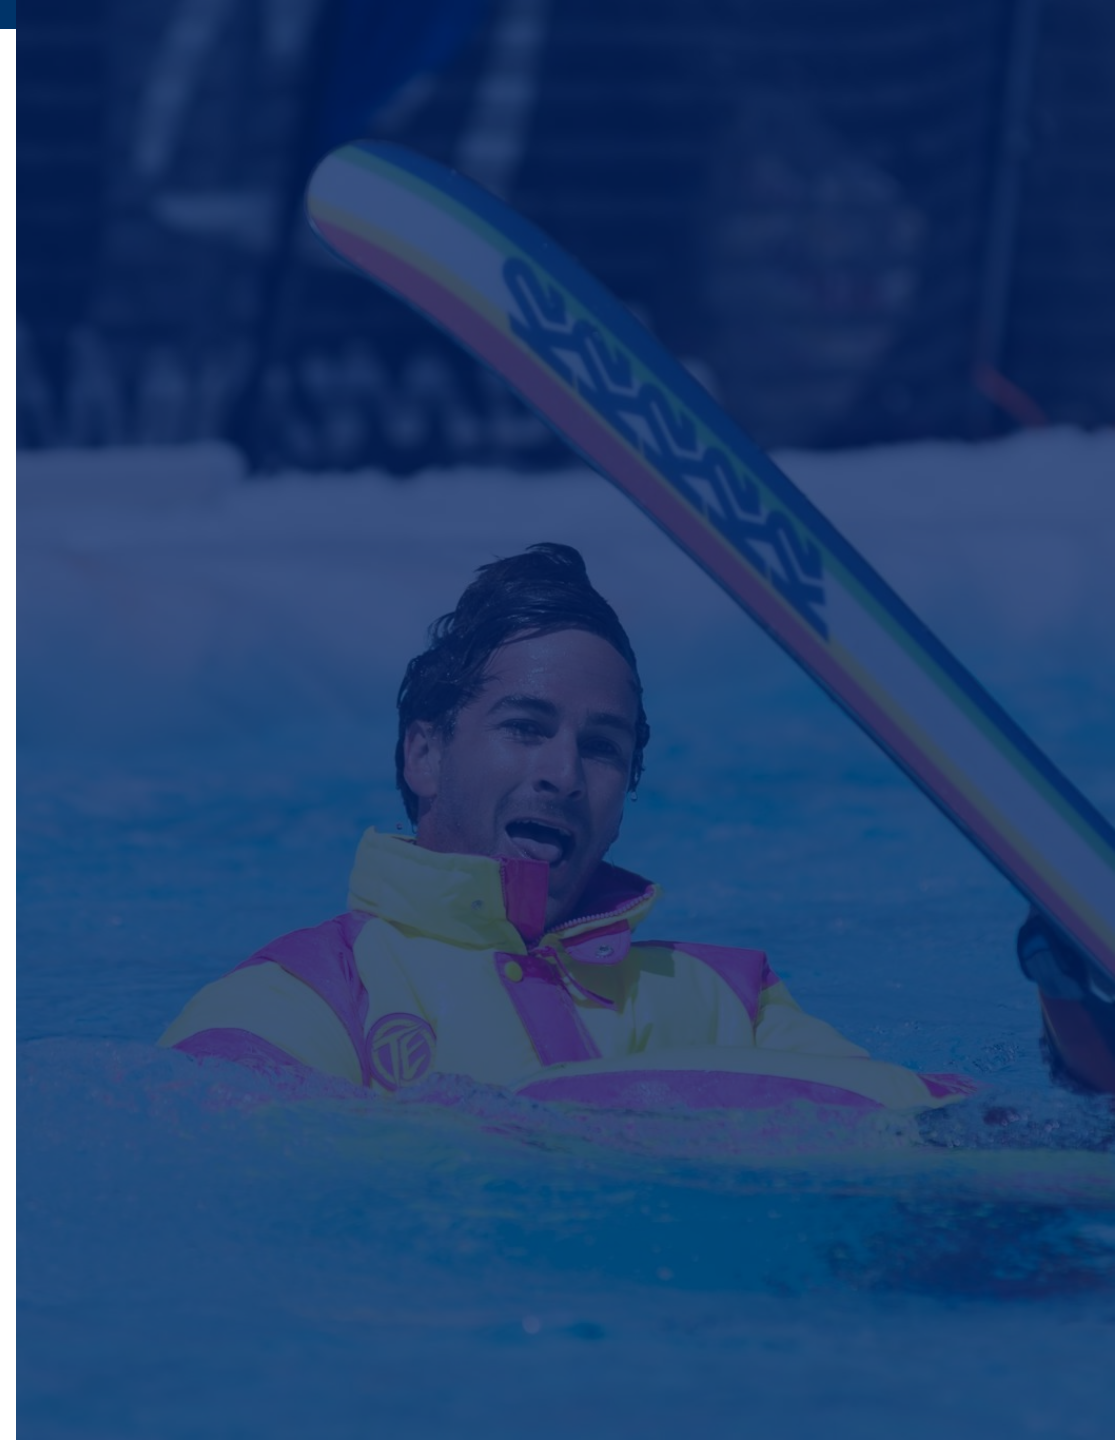

Introduction

In 2019, visitors to Mammoth Lakes spent a total of \$568 million locally and generated \$35 million in local government revenue, and these figures are rising rapidly. From 2010 to 2019, total visitor spending increased 58% while TOT collections increased 93%. The revenue generated by the local Tourism Business Improvement District (TBID) and the work performed by Mammoth Lakes Tourism (MLT) is a major factor in this accelerated growth.

This report provides a comprehensive overview of the TBID and its impact on Mammoth Lakes' tourism sector and overall economy. It highlights key trends over the past decade and quantifies how TBID funding benefits the local government.

Right now, Mammoth Lakes is experiencing a strong recovery from the pandemic. Continued support and a renewal of the TBID will support these trends into the future and ensure that the city's visitor economy reaches its full potential.

Key findings

In 2019, visitors spent \$568 million in Mammoth Lakes, supporting 5,149 jobs and \$176 million in local income.

Since the formation of the TBID, TOT revenue in Mammoth Lakes has grown rapidly, increasing 95% from 2014 to 2019.

MLT is crucial to increasing high yield visitors and driving visitation in the off-season.

Based on prior performance, we estimate MLT funding generates an ROI of 3.86-to-1 for city revenue.

In the absence of the TBID, Mammoth Lakes would forfeit \$1.3 billion in visitor spending and \$58 million of city government revenue over the next decade.

2 Mammoth Lakes' Visitor Economy in the TBID Era

Mammoth Lakes' Visitor Economy in the TBID Era

Importance of the visitor economy

The travel sector is an enormous part of Mammoth Lakes' economy.

In 2019*, visitors to Mammoth Lakes spent \$568 million in 2019. This spending directly generated (i.e., not including indirect and induced effects) 5,149 jobs, \$176 million in wages, and \$35 million local government revenue (city and county).

For comparison, 8,280 people currently live in Mammoth Lakes, and the City of Mammoth Lakes generated \$38 million in FY2019.

*Much of this report focuses on 2019 (fiscal or calendar year) as a benchmark for a typical year.

*Dean Runyan Associates estimates economic impact for Mono County, based on analysis of county-wide room inventory and TOT collections, we estimate 85% of these impacts occur in Mammoth Lakes based on an analysis of hotel room inventory and TOT collections.

**Excludes TBID collections – includes city and county revenue

Mammoth Lakes' Visitor Economy in the TBID Era

Trends in the visitor economy

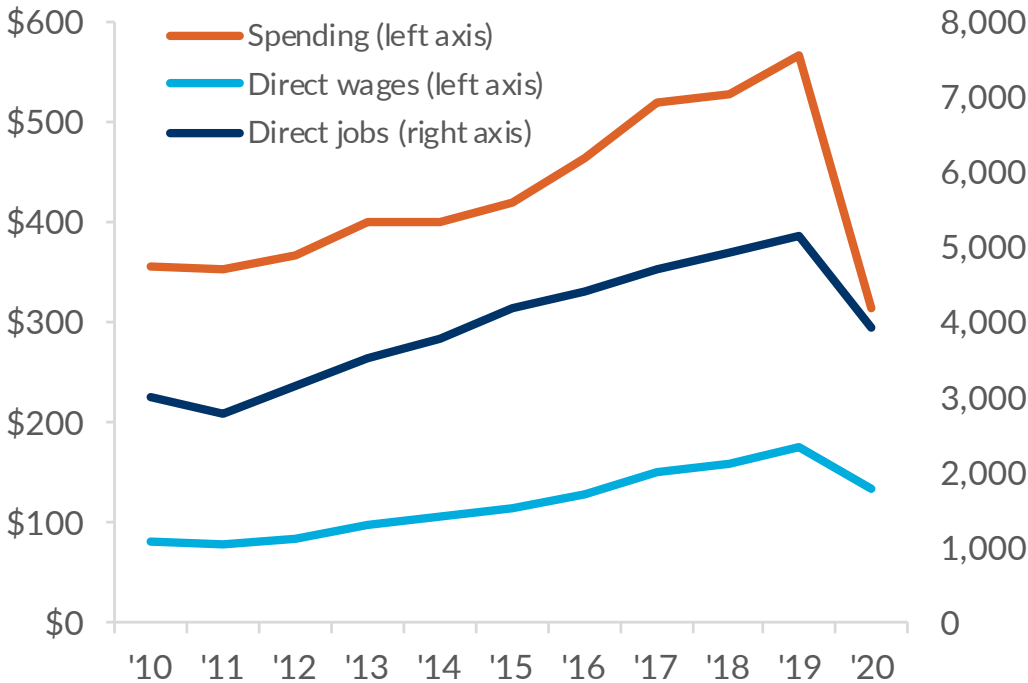

Visitor spending in Mammoth Lakes increased 58% from 2010 to 2019.

Meanwhile, earnings and jobs increased 116% and 70%, respectively.

All measures of the visitor economy fell during 2020 as a result of the pandemic, but recent (early 2022) TOT collections indicate that the visitor economy has already surpassed its pre-pandemic size.

Growth of the visitor economy in Mammoth Lakes

Dollar figures in billions

Mammoth Lakes' Visitor Economy in the TBID Era

TBID formation and funding

The Mammoth Lakes TBID (tourism improvement district) has driven tourism growth since 2014.

The following slides will demonstrate that the growth of the visitor economy has been decidedly faster since the formation of the Mammoth Lakes TBID.

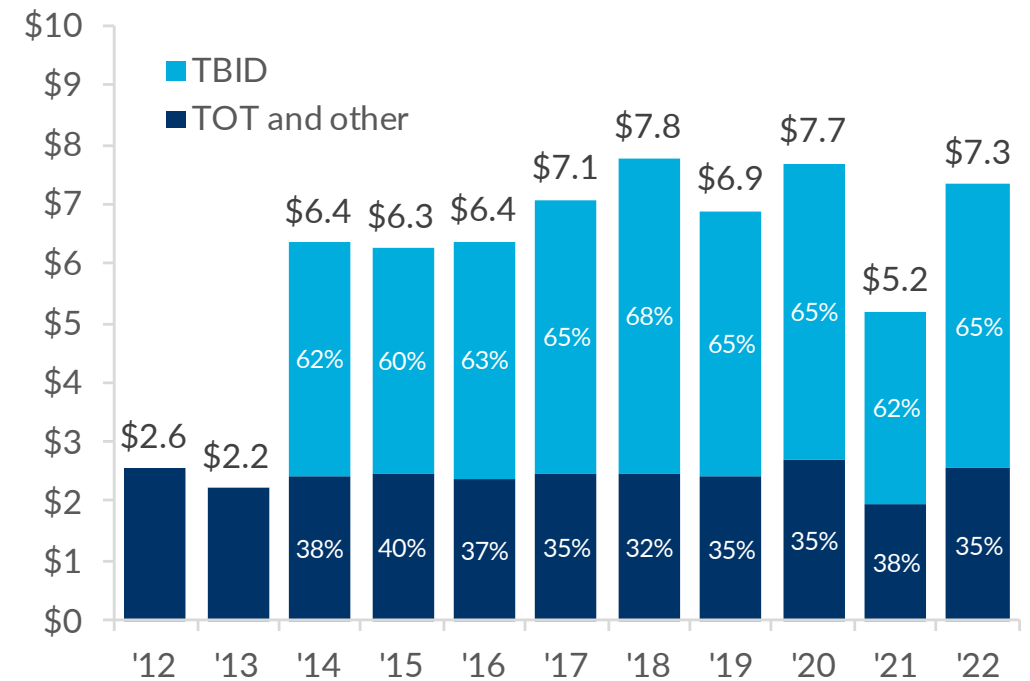

Currently, the vast majority of MLT's budget comes from TBID and TOT collections (tourism occupancy tax).

The TBID significantly boosted MLT's total budget when it was formed in FY2014. The budget rose from \$2.2m in FY2013 to over \$6 million in every preceding year except FY2021. The TBID currently generates around two thirds of the MLT's current budget, essentially tripling what the DMO's budget would be with only TOT funding.

While the TBID was formed in FY2014, we consider its impacts to begin in calendar/fiscal year 2015, as lags exist between collecting revenue, spending it, and newly attracted tourists arriving. We will refer to 2015-2019 as 'the TBID era'.

Mammoth Lakes' Visitor Economy in the TBID Era

Increased spending

The growth rate of visitor spending has more than doubled since in the TBID was introduced.

Before the TBID was formed, visitor spending in Mammoth Lakes grew at an annual rate of 2.8% (2010-2014). In the TBID era, growth soared to 7.2%.

Growth of visitor spending in Mammoth Lakes

Sources: Dean Runyan Associates; Tourism Economics
* Compound annual growth rate

Mammoth Lakes' Visitor Economy in the TBID Era

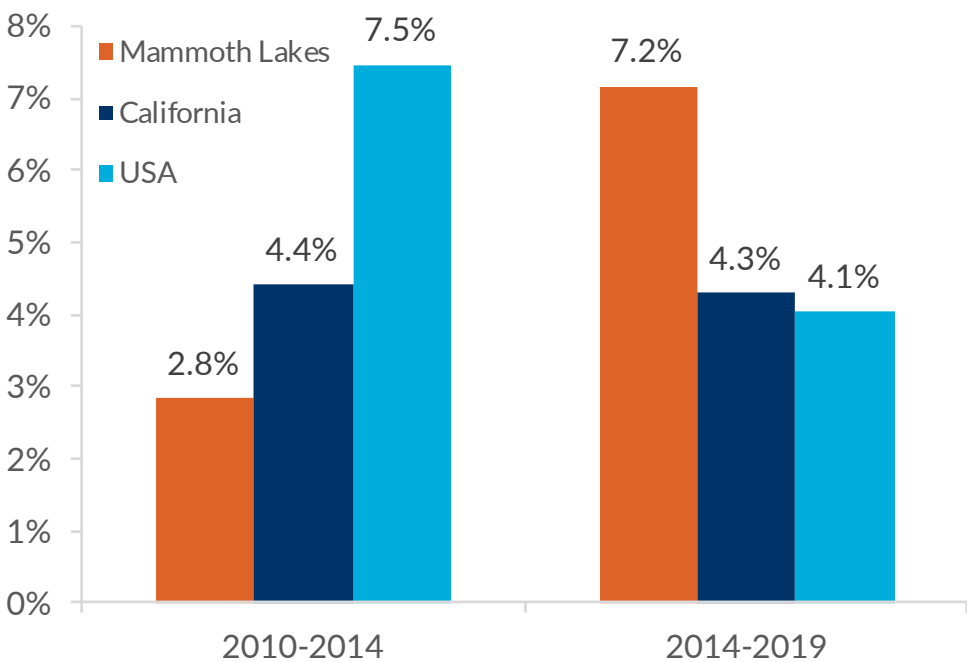

State and national comparison

Mammoth Lakes far surpassed state and national growth rates in the TBID-era after previously trailing them.

National and/or regional trends cannot explain the change in Mammoth Lakes' growth rate. The state grew at roughly the same rate in both periods, and the nation grew much slower in the TBID era.

Growth in visitor spending

Compound annual growth rate

Sources: Dean Runyan Associates; Tourism Economics; US Travel Association

Mammoth Lakes' Visitor Economy in the TBID Era

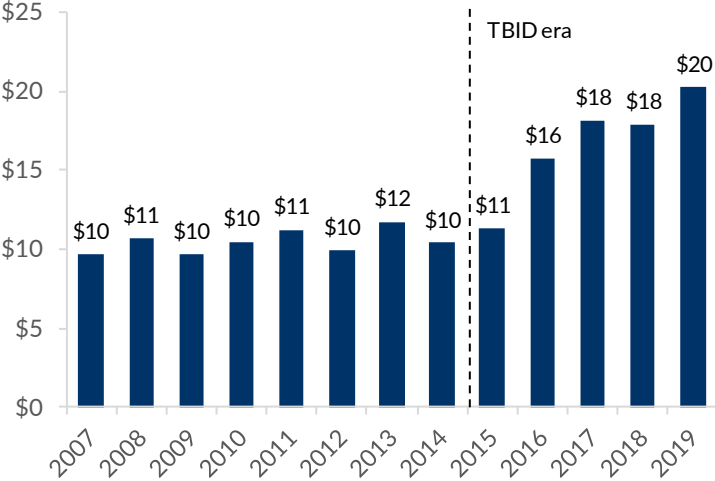

TOT collections growth

Spending on lodging, and therefore TOT collections, has similarly surged in the TBID era.

TOT collections averaged \$16.6 million in the TBID era, after averaging \$10.7 million from 2010-2014, an increase of 55%.

Source: MLT; Dean Runyan Associates
* Adjusted to hold the TOT assessment rate constant

Mammoth Lakes' Visitor Economy in the TBID Era

Low-season growth

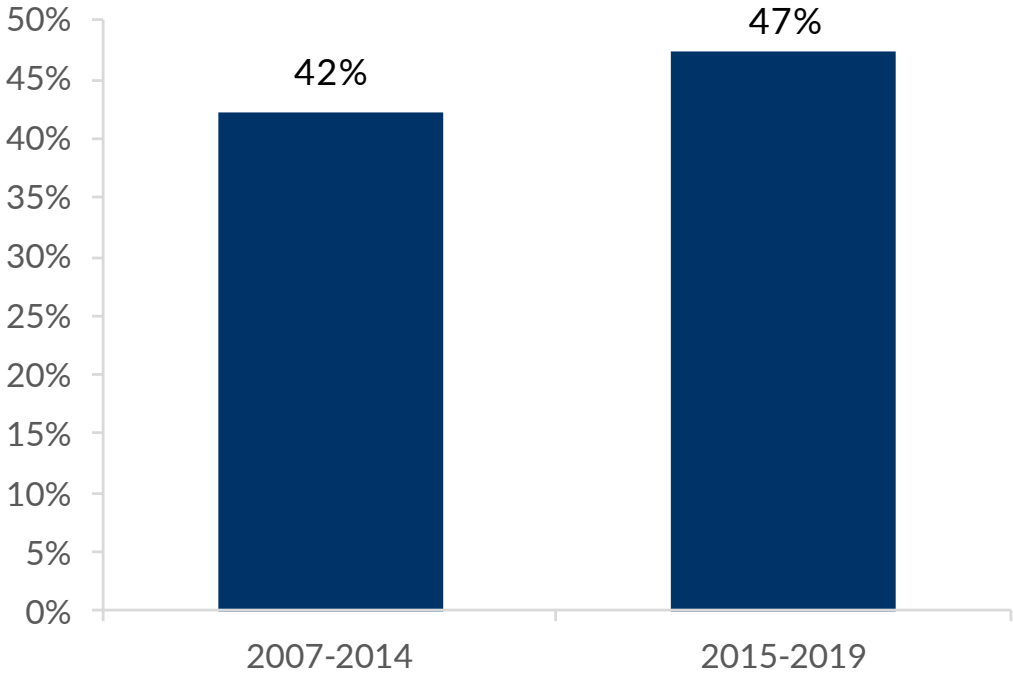

Success in the low-season has helped fuel Mammoth Lakes' overall growth in the TBID era.

TOT revenue in the low-season* is up in the TBID era, averaging 47% of the annual total compared to 42% previously. This increase helped drive the visitor economy's strong growth.

* April - November

3 Growing the Visitor Economy

Growing the Visitor Economy

Growing the air market

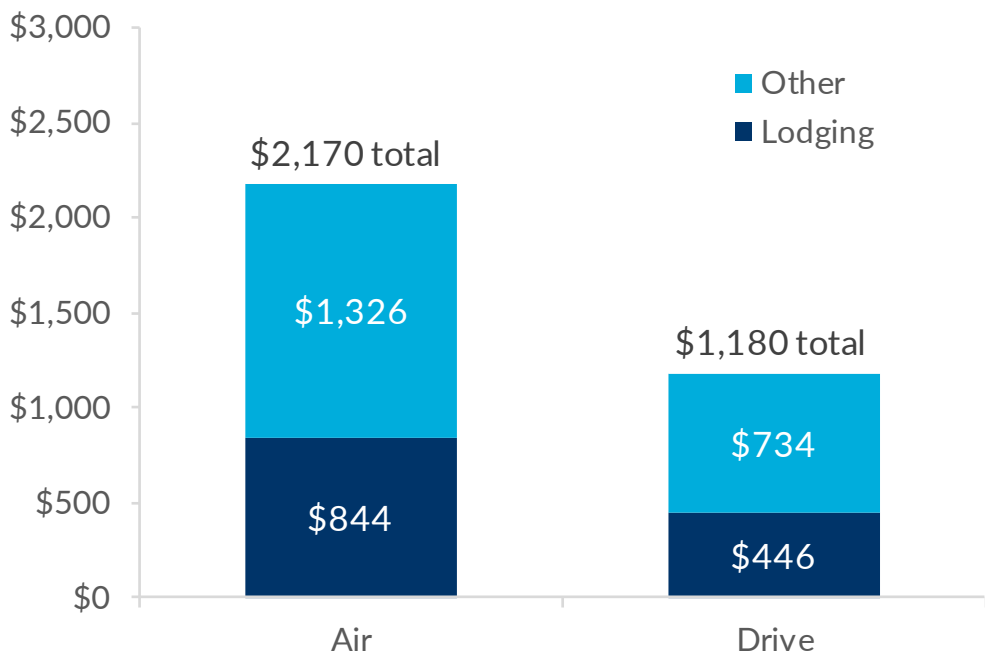

Attracting more air arrivals will boost visitor spending and TOT revenue.

This section reviews two key methods in which it may be possible to boost the economic impact of tourism in Mammoth Lakes: increasing air travelers and attracting more visitors during the low-season.

In terms of economic impact, air travelers are significantly more valuable than drive travelers. They spend 84% more in total and 89% more on lodging (boosting TOT revenue). While air travelers do have longer trips (4.9 nights vs. 3.3 nights, or 48% longer per SMARI), their spending per night is still much higher. So in the high-season, when rooms are scarce, air travelers represent a key driver of increasing impacts.

Spending by traveler segment in Mammoth Lakes, 2018

Dollars per trip per traveling party

Source: SMARI

Growing the Visitor Economy

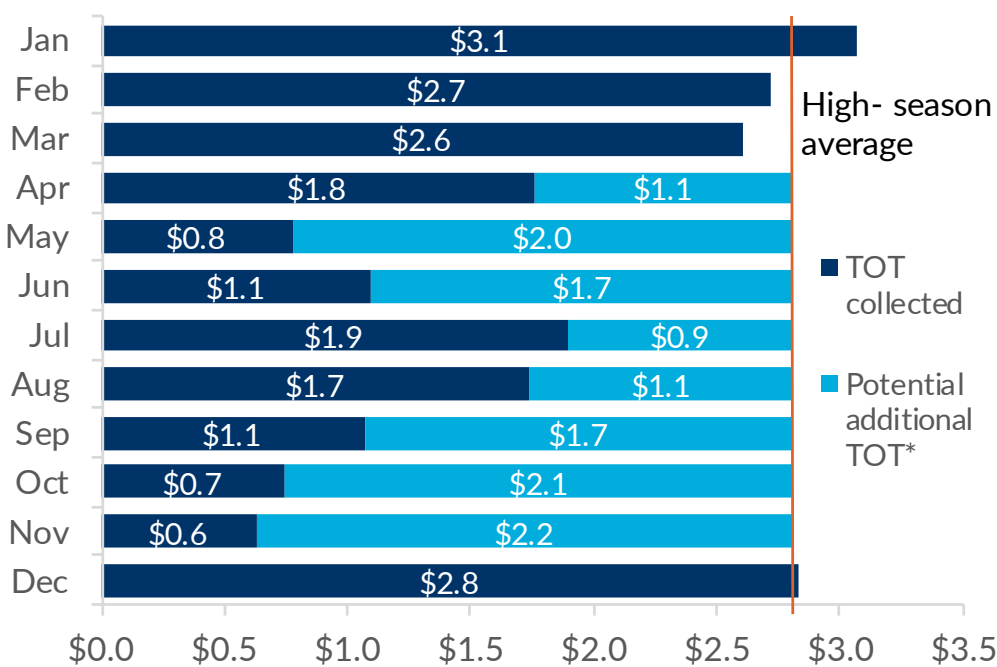

Boosting the low-season

Increasing visitation outside of ski-season would dramatically increase tourism’s impact.

Mammoth Lakes’ four high-season months (Dec.-Mar.) represent 54% of all TOT collections. TOT collections in January are five times that of November. If Mammoth Lakes could boost TOT collections in the low season to the high season average (\$2.8 million per month), an additional \$12.8 million of TOT could be generated, equal to 61% of the 2019 total.

Potential for Mammoth Lakes low season, FY2019

*What could be generated in these months if they reach the high-season total of \$2.8 million.

4 MLT Performance

MLT Performance

MLT expenses breakdown

Since the formation of the TBID, MLT’s budget has increased, and it has spent a smaller portion of this budget on overhead.

In the final year before the TBID, the MLT spent 65% of its budget on marketing and promotion, while 35% went to salary and overhead. Since the formation of the TBID, the MLT has been able to focus most of the additional revenue on marketing and promotion. In the TBID era, MLT has spent an average of 86% of its budget on marketing and promotion and only 14% on salary and overhead.

Growing the Visitor Economy

Paid media – expanding awareness

MLT works to expand awareness of Mammoth Lakes as a tourism destination through its website and paid media.

Example of search engine optimization and paid media partners

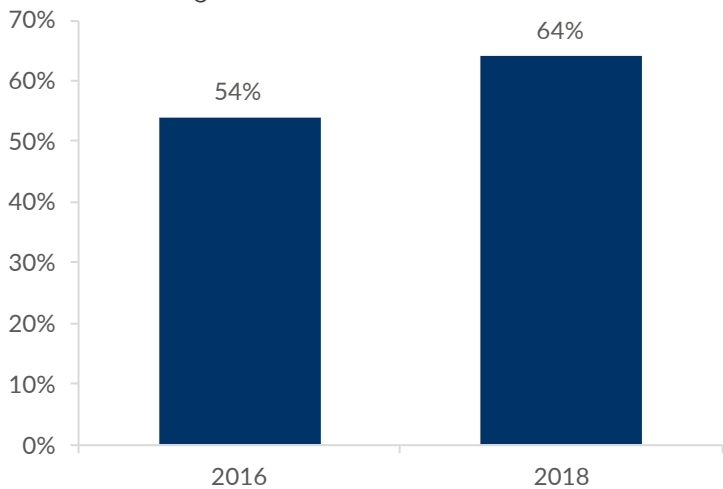

Source: SMARI

These efforts are effective. In recent SMARI surveys, household awareness of Mammoth Lakes amongst the target market increased to 64% in 2018 from 54% in 2016.

Awareness in the target market

Percent of target households familiar with Mammoth Lakes

Source: SMARI

Growing the Visitor Economy

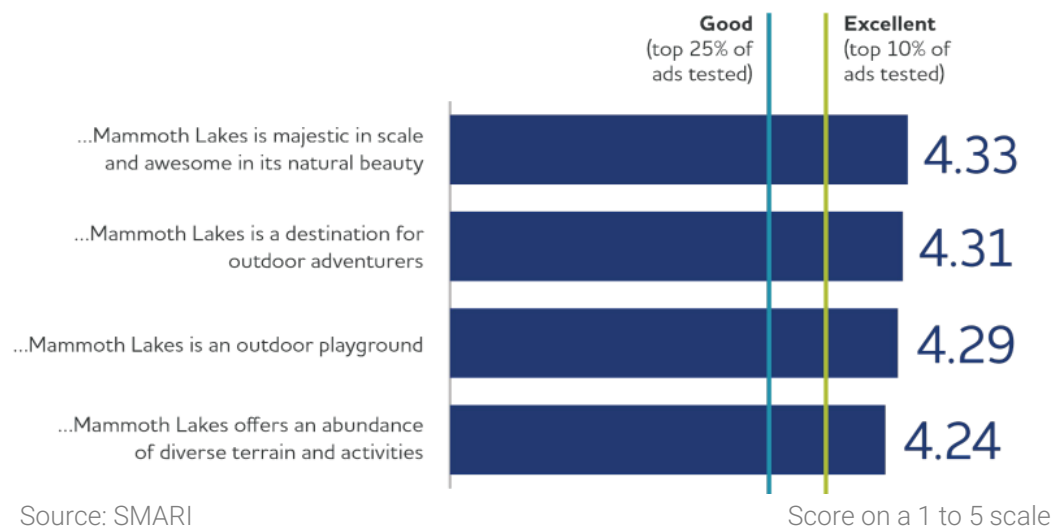

Paid media – creating positive impacts

These campaigns generate positive impressions in the target audience.

In addition to raising awareness, the ads create positive impressions on the viewers and emphasize the stunning nature of Mammoth Lakes. Their impact far exceeds that of most competing media campaigns, scoring in the top 10% of all paid media ads.

MLT advertisement impact

The Mammoth Lakes advertising campaign communicate that...

Growing the Visitor Economy

Generating earned media

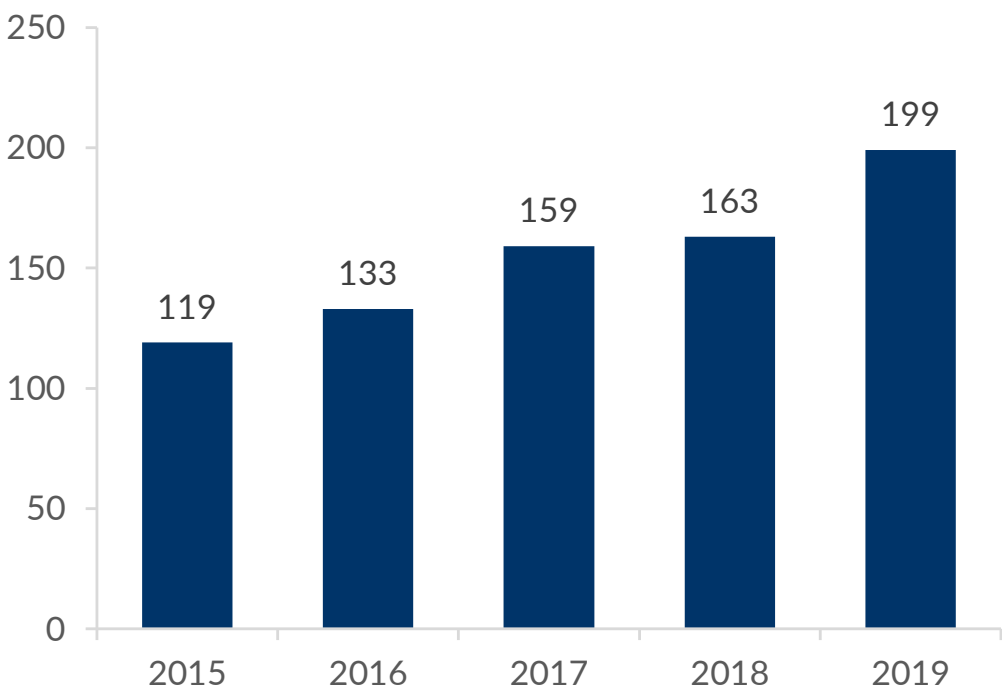

MLT generated 199 pieces of earned media* in FY2019, up 67% from 119 pieces in 2015.

MLT rapidly increased its influence in travel media and was generating more supportive earned media every year before the pandemic.

*Earned media refers to pieces of media outside of MLT’s direct control, such as TV news stories or articles in magazines. These pieces are often more influential for consumers than paid or owned media which are controlled by MLT

MLT earned media per year

Articles per fiscal year

Source: MLT

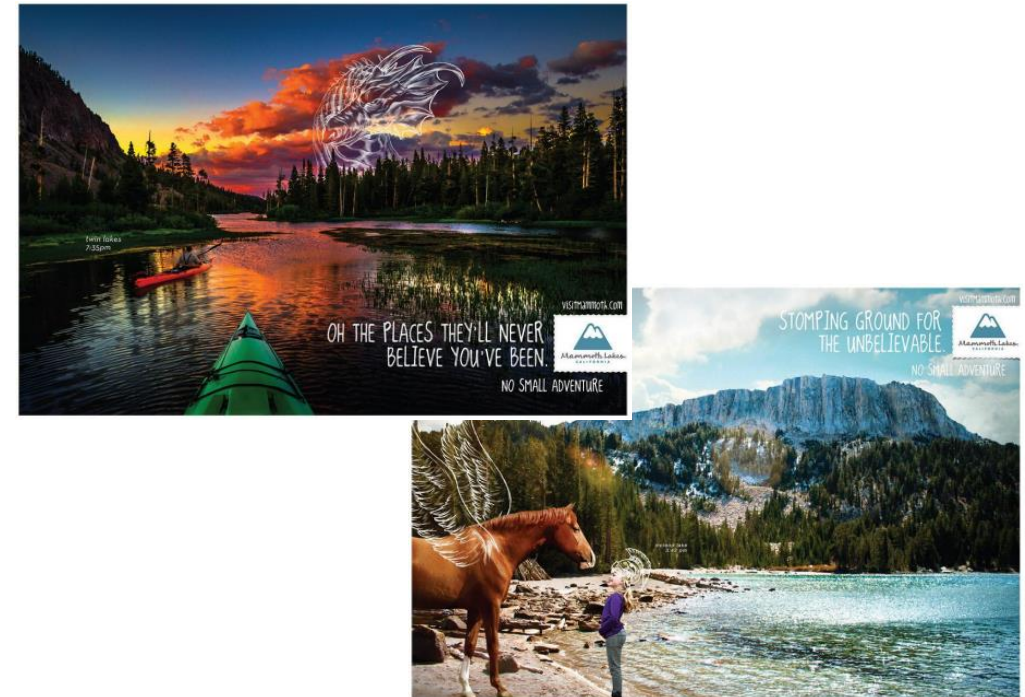

Growing the Visitor Economy

Boosting the low-season

MLT has spent significant resources promoting travel to Mammoth Lakes in the summer and fall.

As demonstrated previously, the low-season is a key opportunity for Mammoth Lakes, and TOT collections during the TBID era are higher than prior years, indicating a strong growth of low-season visitation since formation of the TBID.

Paid media promotion for the low-season

Sources: MLT

MLT Performance

ROI calculation – 1 of 2

Mammoth Lakes outpaced California in visitor spending and tourism promotion funding growth.

To estimate ROI, we examine growth in visitor spending and tourism promotion funding in the TBID era.

As seen previously, Mammoth Lakes’ visitor economy has grown faster than the states’ during the TBID era, 41% vs 23% respectively. If Mammoth Lakes’ visitor spending grew at the California rate (23%), it would have only reached \$496 million in 2019, \$72 million less than the \$568 million it actually reached.

At the same time, the MLT’s budget grew faster than California regional (city and county – not state) DMOs*, 295% vs 71% respectively. If the MLT budget grew at the California rate (71%), it would have only reached \$3.2 million in 2019, \$4.2 million less than the \$7.5 million it actually reached.

Tourism spending comparison

Dollar figures in millions

	2014	2019	'14-'19 growth	
			%	\$
Mammoth Lakes	\$402	\$568	41%	\$167
California	\$117,400	\$144,900	23%	\$27,500
Mammoth Lakes at California growth rate	\$402	\$496	23%	\$94
Mammoth Lakes additional spending*	\$72			

Tourism promotion budget comparison

Dollar figures in millions

	2013	2019	'13-'19 growth	
			%	\$
Mammoth Lakes	\$1.9	\$7.5	295%	\$5.6
California*	\$1,746	\$2,981	71%	\$1,235
Mammoth Lakes at California growth rate	\$1.9	\$3.2	71%	\$1.3
Mammoth Lakes additional funding*	\$4.2			

Sources: Tourism Economics; Dean Runyan Associates; MLT

*as estimated by TOT collections, some variance would be caused by regions varying the share of TOT revenue allocated to the DMO. Additionally, it does not include other TBIDs. This likely makes the estimate conservative as new TBIDs were formed during the period, and other increased assessments.

MLT Performance

ROI calculation – 2 of 2

The City of Mammoth Lakes receives \$3.86 of revenue for every TOT dollar invested in MLT.

Based on the growth rates in the previous slides, we calculate a visitor spending ROI of 17-to-1 for MLT (i.e. for every dollar of increased MLT funding in the TBID era, an additional \$17 of visitor spending was generated). Based on MLT’s FY2019 budget of \$7.5 million, we calculate that the MLT generated a total of \$127 million in visitor spending, \$49 million of lodging spending, and \$5.2 million of TOT collections for the city. Compared to the \$2.4 million of TOT received by the MLT, this implies an ROI of 2.17-to-1 on TOT revenue of the city (for every dollar appropriated to the MLT, the MLT generated \$2.17 dollars for the city).

After considering all sources of non-TOT government revenue, we estimate that the MLT generated a total of \$9.3 million, and a total ROI for the city of 3.86-to-1.

Finally, we estimate that the MLT generated \$39 million of city wages, and a city wage ROI of 5.28-to-1.

MLT ROI calculations

6 Impact of TBID Funding on the Mammoth Lakes Economy

Impact of TBID Funding on Mammoth Lakes' Economy

Scenario development

Changes in the TBID could create an impact of several hundred million dollars.

Here we evaluate the impact of the loss of the TBID via two scenarios. In the Baseline Scenario, the TBID structure remains the same, and in the TBID elimination scenario the TBID is removed in FY2023. We provide additional details on the two scenarios in FY2025, as this is the first year without a “cool-down” or “ramp-up” effect (i.e. the full effect of a funding increase/decrease will not be felt in the first two years of budget changes as lags exists between assessments being collected, distributed, media spending decreasing, consumers making travel plans, and visitors actually traveling).

In 2025, our Baseline Scenario forecasted MLT’s budget is \$11.1 million. In the TBID Elimination Scenario, the MLT’s budget is \$3.2 million, a decrease of \$7.9 million. We estimate a 17-to-1 ROI on this lost funding spending, which results in \$135 million of lost visitor spending.

This lost spending results in the losses of \$6.1 million of city revenue including \$5.2 million of TOT. the city also forfeits 1,479 jobs with associated incomes of \$56 million.

Mammoth Lakes visitor economy in two scenarios, FY2015

Impact of TBID Funding on Mammoth Lakes' Economy

The recovery

Mammoth Lakes can build on recent gains with the TBID in place.

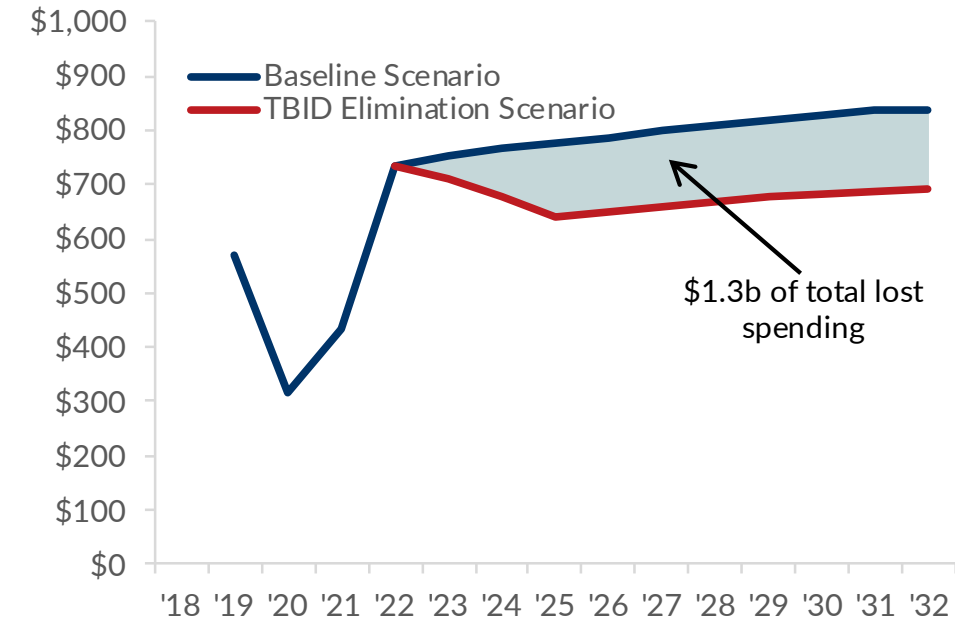

In Feb 2022, TOT collections in Mammoth Lakes were 41% over their pre-pandemic level – and that was not an anomaly as other recent months have posted similar gains. This lodging sector performance compares very favorably with California, which remains well below its pre-pandemic room revenue figures, and the US, which has just edged over its pre-pandemic numbers.

Rural destinations with options to avoid crowds have bounced back quickly and many are experiencing record numbers nationwide. The question remains: can they keep these gains? Or will they fall back as travelers return to cities in greater numbers?

We believe continued strong funding for MLT, including the renewal of the TBID, will be a key driver in maintaining these recent gains and building upon them in the future. Eliminating the TBID invites the risk of falling back closer to the national level of recovery, and substantial losses over the next decade.

The Impact of TIDs

Room demand regression model

Our approach to estimate the effect of TID on room demand included:

- 1. 100 US destinations (counties); 29 TID destinations and 71 non-TID destinations
- 2. Oxford Economics databank was utilized for relevant macroeconomic indicators, namely, GDP and employment (at county level)
- 3. The final panel dataset consisted of 100 cross-sections and 30 time periods (1990-2019), totaling 3,000 observations

$$\log(Room\ demand) = b_1 + b_2 \times \log(Arts\&\ Rec\ GDP) + b_3 \times \log(Total\ GDP) + b_4 \times TID_{dummy} + error$$

Where $TID_{dummy} = 1$ for a TID city, and 0 otherwise.

- The model sought to test whether a positive and significant relationship existed between the dependent variable, *Room demand*, and the independent variable *TID_{dummy}*; a positive b_4 coefficient with a small p-value.
- The other two independent variables, *Arts & Rec GDP* and *Total GDP*, were employed as control variables to control for a destination’s size and its relative importance as a tourist destination.
- Below are the regression results indicating a positive and highly significant b_4 coefficient.
- The results suggest that when controlled for size and importance of a destination as a tourist destination, across our sample of 100 cities, there was an average 2.12% difference in room demand between years in which a destination had an active TID and years without a TID. **Results are statistically significant with a 99% confidence level.**

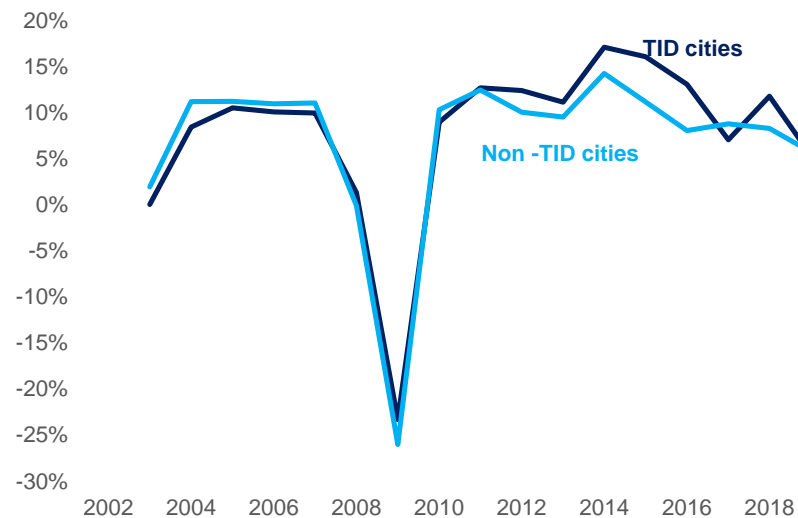

Variable	Coefficient	Std. Error	t-Statistic	Prob.
C	7.051367	0.125775	56.06344	0.0000
LOG(GDP71LCC)	0.135999	0.008530	15.94374	0.0000
LOG(GDPTOTLCC)	0.671031	0.014663	45.76392	0.0000
DUMMY2_TID	0.021258	0.005906	3.599285	0.0003

The Impact of TIDs

High-level view

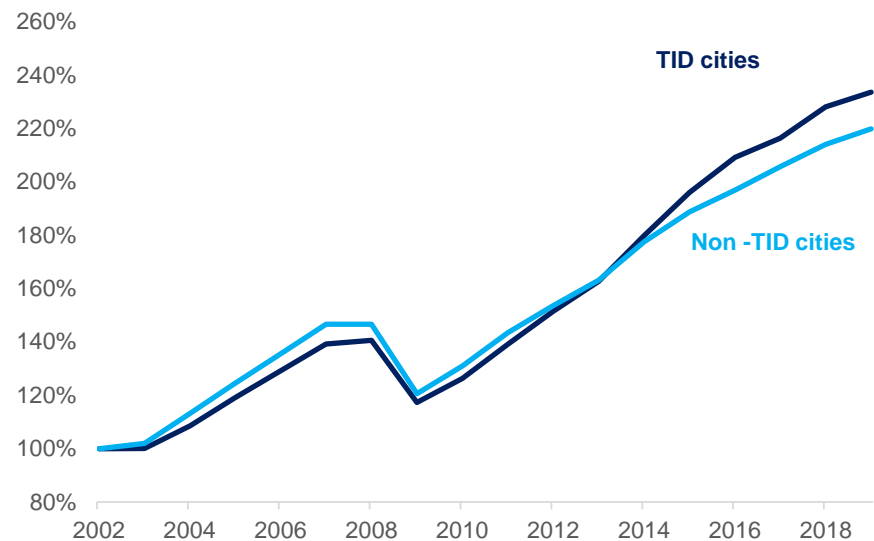

Visually, we can observe that TID destinations outperformed non-TID markets in the latest upcycle.

The Impact of TIDs

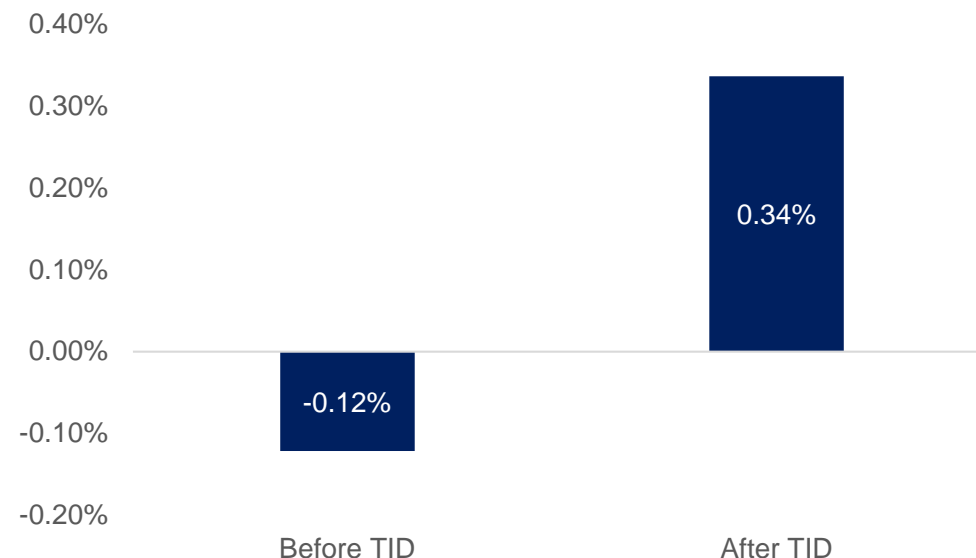

TID growth premium: demand

On average, a destination gains 0.5% in demand growth per year after a TID is put in place.

The demand premium is calculated as the difference between an average 3-year growth in TID cities and non-TID cities prior to the TID ("Before TID") and post the TID ("After TID").

- Before authorizing a TID, growth in cities that eventually had a TID was 12 basis points slower compared to growth in TID cities.
- After authorizing a TID, growth in TID cities was 34 basis points faster compared to non-TID cities.
- Swing of 0.5% in room demand.

The Impact of TIDs

TID growth premium: revenue

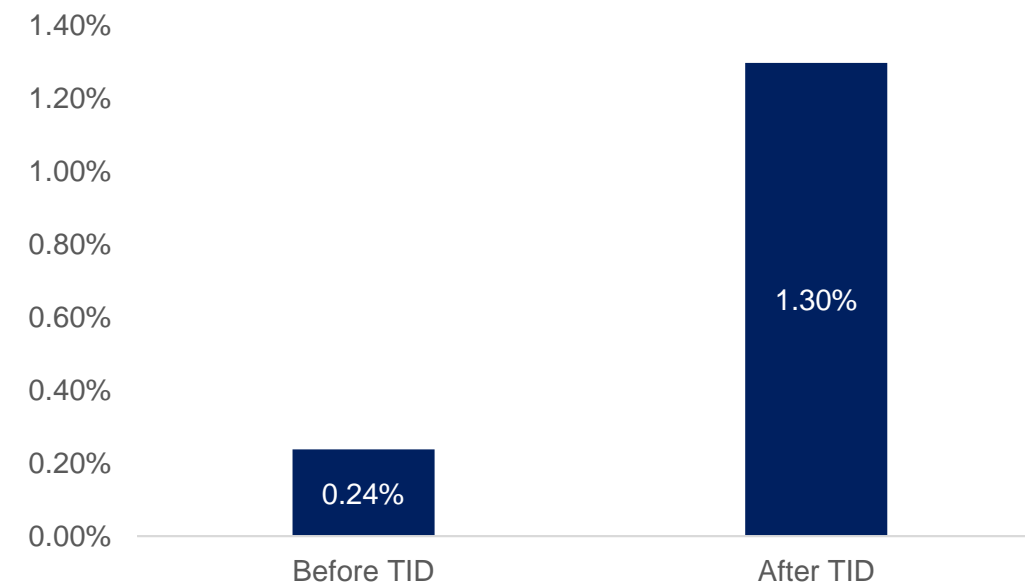

On average, a destination gains 1.1% in revenue growth per year after a TID is put in place.

The revenue premium is calculated as the difference between an average 3-year growth in TID cities and non-TID cities prior to the TID ("Before TID") and post the TID ("After TID").

- Before authorizing a TID, growth in TID cities was 24 basis points faster compared to growth in non-TID cities
- After authorizing a TID, growth in TID cities was 130 basis points faster compared to non-TID cities
- Gain of 1.1% in room revenue.

The Impact of TIDs

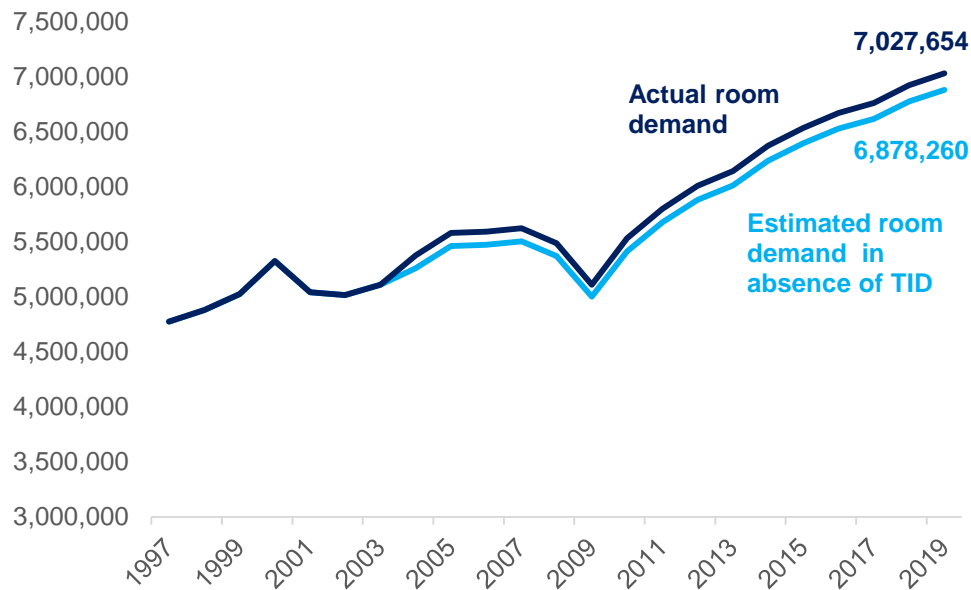

TID room demand lift

On average, our modeling indicates that TIDs produce a 2.1% lift in hotel room demand.

The 29 TID destinations in our model grew to generate 7,027,654 rooms in 2019. Without the boost generated by the TIDs, these destinations would have only generated 6,878,260 rooms.

The Impact of TIDs

TID room demand lift

On average, our modeling indicates that TIDs produce a 4.5% lift in hotel room revenue.

The 29 TID destinations in our model grew to generate \$1.12 billion in room revenue in 2019. Without the boost generated by the TIDs, these destinations would have only generated \$1.07 billion in room revenue.

The Impact of Tourism Improvement Districts

Economic benefits of TIDs

The impacts of TIDs go beyond just the hotel and tourism sector.

Tourism promotion funding provided by TIDs results in more visitors and visitor spending, and this spending represents a new injection to the local economy with many downstream benefits. In total, benefits are felt on three levels.

- **Direct Impacts:** Visitors create direct economic value within a discrete group of sectors (e.g., recreation, transportation). This supports a relative proportion of jobs, wages, taxes, and GDP within each sector.
- **Indirect Impacts:** Each directly affected sector also purchases goods and services as inputs (e.g., food wholesalers, utilities) into production. These impacts are called indirect impacts.
- **Induced Impacts:** Lastly, the induced impact is generated when employees whose wages are generated whether directly or indirectly by visitors, spend those wages in the local economy.

Appendix 2: The ROI of Destination Marketing

The ROI of Destination Marketing

Many state and local CVBs and DMOs conduct periodic assessments of marketing effectiveness. There are several goals of these studies, including understanding how specific marketing campaigns are perceived by households, how effective the campaigns are in having an impact on households' intent to travel to a given destination, and which target markets are showing differing level of responsiveness to marketing. Frequently these studies include a specific analysis of the ROI of marketing spending in the form of a quantitative assessment of the level of incremental visitor spending and tax revenues that are attributable to destination marketing.

These studies use a variety of methods and are measuring the impact of a range of different campaigns across different situations. For example, a specific study may look at incremental visitors attracted by a state-level marketing campaign conducted by a state that attracts travelers from a range of national markets, while another study may focus on the results of a more targeted regional campaign carried out by a city-level CVB. While the results of a specific study pertain most directly to the situation that was analyzed and the corresponding assumptions, it is appropriate to consider broader inferences from the research. We analyzed recent studies that included an estimate of the incremental visitor spending attributable to advertising campaign spending.

For example, in a fairly typical approach, a study would:

- Use a survey to analyze the effect of a specific advertising campaign on households' travel to a given destination, such as by analyzing the impact on actual travel among those that had observed the advertising or by analyzing the impact on households' intentions to travel;
- Project that effect to the broader set of households in the marketing area to estimate the number of incremental visits attributable to the campaign;
- Apply typical levels of spending per visitor to estimate incremental visitor spending; and,
- Compare incremental visitor spending to the level of advertising spending to estimate the ROI.

Tourism Economics summarized the estimates of incremental visitor spending per dollar of advertising campaign spending from these studies in the table on the following page

The ROI of Destination Marketing

Estimates of incremental visitor spending per dollar of advertising campaign spending from the set of studies we analyzed is summarized in the adjacent table, supporting the following observations:

Overall, we observe that recent marketing campaigns by destination marketing organizations at the metro/regional level have generated approximately \$53 of incremental visitor spending per dollar of advertising spending.

These ROI estimates relate directly to advertising spending. It is also appropriate to consider a visitor spending ROI relative to total CVB operating costs, or relative to public funding. As an example of the former approach, Meet Minneapolis reports the ratio of visitor spending associated with events tracked in its group sales management system to total CVB operating costs has averaged \$33 in recent years. This excludes almost all leisure visitor spending.

As an example of an ROI based on public funding, the Florida state government recently analyzed the return on investment for public funding of Visit Florida. The analysis attributed Visit Florida's public funding (excluding, for example, significant private funding for cooperative advertising and promotions) to generating \$11.2 billion of visitor spending during the three-year-period through FY 2013, representing a visitor spending ROI of \$97, and a state tax revenue ROI of \$3.2 (\$3.20 of state tax revenue generated by each \$1 of state funding).

Marketing ROI matrix

Region	Timing	Visitor spending per ad dollar
States		
California	Average 2009 to 2013	\$326
Arizona	Average 2007, '11, '12, '15	\$221
Georgia	Average 2011 and 2012	\$211
Colorado	2012	\$200
Florida	2011	\$177
Maryland	2012	\$160
Wyoming	Average 2012, '13, '14	\$156
Kentucky	2014	\$151
Missouri	2013	\$131
North Dakota	Average 2010, '12, '14	\$101
Utah	Average 2010, '11, '13	\$83
New Mexico	2013 to 2015	\$72
Virginia	2006	\$71
Michigan	Average 2006 to 2014	\$69
Metros and regions		
Philadelphia, PA	2009/10	\$100
Kansas City, MO	2013	\$65
Washington, DC	2013	\$27
San Diego, CA	2013	\$19
Branson, MO	2012	\$79
Springfield, MO	2011	\$61
Finger Lakes Wine Country, NY	2012	\$44
Syracuse, NY	2008	\$12
Average of metros/regions		\$51
Median of metros/regions		\$53

About Tourism Economics

Tourism Economics is an Oxford Economics company with a singular objective: combine an understanding of the travel sector with proven economic tools to answer the most important questions facing our clients. More than 500 companies, associations, and destination work with Tourism Economics every year as a research partner. We bring decades of experience to every engagement to help our clients make better marketing, investment, and policy decisions. Our team of highly-specialized economists deliver:

- Global travel data-sets with the broadest set of country, city, and state coverage available
- Travel forecasts that are directly linked to the economic and demographic outlook for origins and destinations
- Economic impact analysis that highlights the value of visitors, events, developments, and industry segments
- Policy analysis that informs critical funding, taxation, and travel facilitation decisions
- Market assessments that define market allocation and investment decisions

Tourism Economics operates out of regional headquarters in Philadelphia and Oxford, with offices in Belfast, Dubai, Frankfurt, and Ontario.

Oxford Economics is one of the world's foremost independent global advisory firms, providing reports, forecasts and analytical tools on 200 countries, 100 industrial sectors and over 3,000 cities. Our best-of-class global economic and industry models and analytical tools give us an unparalleled ability to forecast external market trends and assess their economic, social and business impact. Headquartered in Oxford, England, with regional centers in London, New York, and Singapore, Oxford Economics has offices across the globe in Belfast, Chicago, Dubai, Miami, Milan, Paris, Philadelphia, San Francisco, and Washington DC, we employ over 400 full-time staff, including 300 professional economists, industry experts and business editors—one of the largest teams of macroeconomists and thought leadership specialists.
